WE LEAD, INNOVATE & INSPIRE

J.E. Cairnes School of Business & Economics

Undergraduate Degrees 2019 - 2020
Welcome to NUI Galway
Did you know?

1% We rank among the top 1% of universities in the world for the quality of our teaching and research, according to the latest QS World University Ranking. This ranking consolidates our position among the world’s elite educational institutions.

Times Higher Education (THE) World University Rankings includes NUI Galway in Top 200 list of most international universities in the world.

NUI Galway has been named ‘University of the Year 2018’ in the Sunday Times Good University Guide, securing the prestigious accolade for a third time.

1% of J.E. Cairnes School of Business & Economics graduates seeking employment within six months of graduating in 2017.

10% Tá 10% de mhic léinn na hOllscoile ag deánamh staidéir ar an nGaeilge nó trí mheán na Gaeilge.

1,000 We are leading the way in student volunteering and civic engagement. More than 1,000 students gave 148,000 hours of voluntary activity in the last year.

€400m We are in the final stages of a €400 million capital investment programme, which has transformed the campus and given students and staff access to the very best facilities for teaching and research.

The contents of the prospectus are for information purposes only and shall not be deemed to constitute a contract between NUI Galway and an applicant or any other third party. While every effort is made to ensure the accuracy of the information in this publication, the University reserves the right to amend, change or delete any courses, syllabuses, examinations, fees, regulations, rules or orders at any time without notice.

Studying at J.E. Cairnes School of Business & Economics provides students with a world of opportunities. Many of our graduates have top positions in companies globally, run their own companies or have leadership positions in a wide variety of organisations.

Employability

Graduates in the areas of Business and/or Economics are of vital importance to the creation and advancement of the smart economy. Our graduates are highly sought-after by employers, with 99% of graduates employed or in further study in 2017.

Innovative Learning

Our programmes, which place an unrelenting focus on the student learning experience, conform to the highest international standards. The exciting, stimulating and progressive learning environment enhances student engagement through a mix of large lectures and smaller groups of tutorials, as well as leadership in the use of online and blended technologies and entrepreneurship. This is fostered through internal and external business competitions.

World Class Teaching

Lecturers in the School are among the best in their fields and the media often seek out their expert advice on topical issues in the news. Our staff are also closely linked with industry - locally, nationally and internationally which allows them to ensure that their teaching is relevant to the fast-paced business world.

Study Opportunities

Studying abroad can be of immense value for both personal and academic development and here at NUI Galway we actively encourage our students to avail of opportunities to travel. This allows students to improve their language skills, learn about different business cultures and customs and it also enhances their employment prospects. We have strong links with 75+ partner universities in Europe, North America, China, South Korea, Mexico, Japan, Hong Kong, Taiwan and Australia.

Work Placement Opportunities

All of our programmes give students the opportunity to avail of work placement and/or study abroad. For those who embark on work placement, the University will facilitate you in gaining relevant and career focused placement with one of our 200+ industry partners.

100+ Years of providing Business Education

Why Study Here?

Become a Work Ready, Career Ready and World Ready Graduate
Some examples of our staff’s expertise include:

Lecturers in Marketing: **Dr Christine Domegan and Dr Declan Fleming**
co-authored the widely used text book “Marketing Research in Ireland, Theory & Practice”, Third Edition.

**Dr Deirdre Curran** Lecturer in Management and Employment Relations
was a winner of an inaugural “Teaching Hero” award run by the National Forum for the Enhancement of Teaching and Learning in Higher Education in partnership with the Union of Students in Ireland (USI). Chair of the Kennedy Institute Workplace Mediation Research Group (www.KIWMRG.ie)

**Professor John McHale** A graduate of Harvard, Dean of the College of Business, Public Policy and Law at NUI Galway is a former chairman of the Irish Fiscal Advisory Council (IFAC) which is tasked with independently assessing the fiscal stance of the Irish Government’s budgetary policy.

**Dr Gerard Turley** A lecturer in Economics and co-author of several books, including “Principles of Economics”, “Transition Economics: Two Decades On”, “Transition, Taxation and the State”, and “Handbook of the Economics and Political Economy of Transition”.

**Dr Michael Lang** Lecturer in Business Information Systems was a recipient of the President’s Award for Teaching Excellence recognising his outstanding efforts to ensure our students receive the highest quality learning experience.

**Professor Eamon O’Shea** Has been influential in setting the agenda for the ongoing reform of the long-stay sector in Ireland, particularly in relation to funding, priority-setting and dementia. Eamon lectures in Economics.

**Professor Alma McCarthy** Head of the Management Discipline. She has recently served as Vice Chair and Chair of the Irish Academy of Management (IAM). She is an accredited member of the British Psychological Society (BPS) and certified to administer a broad range of cognitive ability, personality and occupational interest psychometric assessments.

**Professor Alan Ahearne** Director of Whitaker Institute at NUI Galway and a former economic advisor at the US Federal Reserve, was one of the first to predict the current recession in 2006.

**Dr Emer Mulligan** Lecturer in Taxation and Finance and member of the Irish Taxation Institute and leading expert in tax planning and practices within multinationals. Winner of the Network Galway Outstanding Business Woman of the Year 2017.

**Dr Dr Geraldine Robbins**, Lecturer in Accounting and Corporate Finance has an active research interest in public sector financial management and governance. She is a member of the Board of Beaumont Hospital where she also chairs the Finance Committee.
Employability

A degree from the J.E. Cairnes School of Business & Economics at NUI Galway provides students with the essential business knowledge, skills and competencies that are vital in the world of business and management. NUI Galway’s graduates are highly successful in their chosen field and are highly sought after in all areas of Business, Management and Economics. Whether you want to start up your own business, aspire to become Ireland’s next budding economist or want to enter the exciting and challenging world of international business, a Business degree at NUI Galway is the right choice for you.

One of Ireland’s top business schools for graduate employability

Our programmes offer mentorship from industry experts, which helps students develop the practical skills that make them work ready, career ready and world ready.

*There are limited places available, allocated on the basis of merit and student performance.
Our courses allow you specialise in the following areas:

**Accounting & Performance Measurement**: Students study accounting and accounting-related modules, positioning them for a career in accountancy and finance. Depending on the modules chosen, excellent exemptions are available to successful students in the professional accountancy bodies’ exams.

**Economics & Public Policy**: Students can apply their economic theory to modules as diverse as the economics of globalisation, the economics of money and finance, and health and environmental economics. With this knowledge and the associated skills students who specialise in economics will be able to work in the private, public or voluntary sectors, as economic analysts, researchers, advocates, policy advisors or economic consultants.

**Management of Human Resources**: This specialisation focuses on the management of the human factor in organisations, exploring the nature of the employment relationship and the rights and obligations of the parties involved. It also focuses on the theoretical bases for the best utilisation of human resources (HR). It is targeted at students with a particular interest in the human aspect of organisations and those intending to develop a career in the HR management area.

**Marketing Management**: This specialisation provides an excellent foundation in a range of key and popular marketing topics, such as media and marketing communications, brand management, marketing analytics and research, digital marketing planning, the marketing of services and global marketing.

**Digital Business & Analytics**: This specialisation focuses on the implementation, use and management of information systems within business. It contains practice-based modules that teach students how to create IS using database technology, web design technology and computer programming languages. It also provides modules that enable students to investigate how to manage IS within business. Students will be well positioned to secure jobs as management consultants and analysts specialising in IS or to work within the IS department of a business.

**Finance**: This specialisation focuses on a diverse range of important contemporary topics in national and international finance, including international monetary systems, banking, exchange rates, financing and investment decisions, taxation, financial reporting, investments and issues of financial management inherent in managing multinational corporations and institutions. Students will be readily employable in private sector financial services firms as well as both Irish and international public sector financial institutions.

**Business Law**: This stream focuses on law specifically in a business context. It is targeted at students with a particular interest in the legal aspects of business. Students who successfully complete this stream and wish to further specialise in law will be eligible to apply for the LLB.

**International Business**: This specialisation focuses on managing people, diversity in culture and how to effectively lead and manage in a global marketplace. The specialisation focuses on developing knowledge and expertise in international business and cross-cultural management and provides students with the knowledge and skills required for a career in international management and multinational corporations as well as other organisations. Using a multidisciplinary approach, students develop their cultural awareness skills and understand how to operate effectively in a dynamic global business environment.

**Enterprise**: This specialisation focuses on giving enterprising students the structural and academic supports necessary to succeed in an entrepreneurial career. Students will receive the knowledge and supports necessary to succeed and innovate as entrepreneurs in an evolving global economy.
All Commerce, Commerce (Global Experience), Commerce (International), Commerce (Gaeilge), Commerce (Accounting) and BIS students will put their business knowledge into practice in their final year, when they take a module in Innovation, Creativity and Enterprise (ICE). Initiated by former Aer Arann entrepreneur, Pádraig Ó Céidigh, this Dragons Den type module involves partnering with business leaders to provide opportunities for all students to engage in group-based projects requiring them to innovate in a variety of business areas, or in a community setting.

These attributes are vital in the current competitive job market. Some areas studied include:

- Theory and practice of innovation in organisations, society and the economy.
- Current thinking and recent developments with respect to innovation.
- Entrepreneurship.
- Impact of innovation on individuals and society.
- Recognising and developing opportunities for innovation in response to organisational challenges.
- Connecting with your individual capacity for creativity and innovation.

The overall objective of the module is to encourage students to be self-confident in their ability to be creative and innovative in whatever future business or community settings they are working.

Find out more about the ICE module at www.nuigalway.ie/commerce
The Innovation, Creativity and Enterprise module is a big breakthrough in providing an opportunity for students to gain first-hand experience of putting theory into practice with the support and resources of the mentoring panel from the business community, and at the same time having the backing of the teaching staff in the Business School. The interesting phase is now to progress the ideas to see how realistic it is to bring them to market in a cost effective manner that will provide a return on investment.

Fiona Monaghan, General Manager, Fáilte Ireland West
Why choose B Comm (Global Experience)?

• There are a broad range of subjects in the first two years of the programme which give students an excellent foundation of business knowledge and allow them to decide in which area they wish to specialise in final year.

• Students are empowered to take responsibility for their personal and career development. Students take specifically skills based modules that are designed to improve student employability and prepare them for the workplace by developing a set of practical and interpersonal skills that form the basis for effective working life.

• Students have the opportunity to study abroad at some of the world’s most elite universities and business schools, and gain an alternative perspective on education in another country.

• Students have the opportunity to complete work placements in leading Irish or multinational companies. This is a fantastic opportunity to put theory into practice and to gain valuable experience in a working environment.

• Our lecturers’ links with industry ensure that the programme is up-to-date, relevant and useful to today’s graduates and employers.

Career Prospects
Graduates are highly successful and sought after in all areas of business, including accounting, management consultancy, taxation, public service, commercial advisory services, economic policy advice, marketing, human resource management, information systems management, finance, personnel management, teaching and/or research. The work placement and international study experience increases the career opportunities, both at home and abroad.

Deloitte Partnership
NUI Galway is pleased to announce that it will partner with Deloitte on the University’s B Comm Global Experience course. As part of the partnership, Deloitte will provide funding over five years to support students while studying abroad. The first Deloitte Global Scholars will be travelling abroad in September 2018.

Check out the Global Experience web page and see our interactive Study Abroad map under ‘Why Choose This Course’!
The B Comm (Global Experience) combines a flexible business education with work placement and study abroad opportunities.

It equips graduates to work internationally or work in multinational business environments with a well-regarded, internationally recognised degree.

- International Business
- Enterprise
Why choose the Bachelor of Commerce?

- There are a broad range of subjects in the first two years of the programme which give students an excellent foundation of business knowledge and allow them to decide in which area they wish to specialise in final year.
- The programme provides students with a mix of large lectures and smaller group tutorials where they can ask further questions and get help with coursework.
- Students are empowered to take responsibility for their personal and career development. Students take specifically designed skills based modules to improve employability and preparation for the workplace by developing a set of practical and interpersonal skills that form the basis for effective working life.
- Students practically apply their classroom learnings through case studies, business simulations, and company projects.
- Our wide variety of optional modules afford students great flexibility to develop their individual expertise.
- Our lecturers’ links with industry ensure that the programme is up-to-date, relevant and useful to today’s graduates and employers.

Global Experience and Work Placement:

The B Comm can be extended from three to four years. We offer students a competitive opportunity, based on student performance and merit, to enhance their studies, spending one academic year on work placement and studying abroad, or a full year studying abroad. In third year students will study a range of business courses through English at an international partner university in North America, Australia, Asia or Europe, providing students with an invaluable experience and graduating with a B Comm (Global Experience) degree. Students will return to NUI Galway to complete their final year.

Where the B Comm can take you

Graduates of the B Comm are highly successful and sought after in all areas of Business. Our graduates go on to work in a variety of careers including:

- Accounting (both professional practice and industry)
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking & Insurance)
- Education
- Teaching

Graduates can also go on to select from a range of postgraduate programmes in their chosen discipline at the J.E. Cairnes School of Business & Economics.

Graduate Profile

What I enjoyed most about this course was the fantastic opportunities afforded to students. For example, in second year, students participate in a “Skills for Business” module. This gives students an opportunity to contribute to projects in the wider community. My group and I travelled to Club-Napoca in Romania where our panel bid for Galway to become European Youth Capital in 2017. It was an honour to represent the city of Galway as well as NUI Galway.

Another enjoyable experience arose from the Innovation Creativity and Enterprise (ICE) module. My team created “TipToTheTop”, an Irish Dancing aid to assist beginners. Our winning prize included funds and an office space to start up our business. I would strongly recommend anyone with a passion for Commerce to participate in this course. I thoroughly enjoyed every moment of my time in Galway – the best three years of my life!

Cara Hegarty, Analyst at Accenture
The Bachelor of Commerce at NUI Galway has a long tradition as one of Ireland’s leading business degrees. The B Comm is a three year undergraduate programme which gives students a solid foundation in a broad range of business subjects and allows them to specialise in their chosen field in their final year. Students can specialise in Accounting & Performance Measurement, Economics & Public Policy, Management of Human Resources, Marketing Management, Digital Business & Analytics, Finance, Business Law, International Business or Enterprise. This programme is designed for ambitious students who are looking to pursue careers in the ever changing and dynamic world of business.

</table>

Entry Requirements:
Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including: Irish, English, another language, Mathematics and any two other subjects recognised for entry purposes. For GY202 - H3 in French is required. For GY203 - H4 in German is required. For GY204 - H4 in a modern European language other than Irish or English.

Why choose B Comm (International)?
- Graduates of this programme not only have a great business qualification but also an international language. This international experience and qualification is highly sought after in today’s competitive global job market.
- The large range of subjects in the first two years of the programme give students a broad knowledge of business and allows them to decide which area of business is best for them.
- Small class sizes allow students to ask questions and get help with coursework.
- Our lecturers’ links with industry ensure that the course is up-to-date, relevant and useful to today’s graduates and employers.
- Students have the opportunity to study abroad at some of the world's most elite universities and business schools, and gain an alternative perspective on education in another country.
- The international year provides students with the opportunity to experience a new culture and build a network of global connections. You will also develop your cross cultural awareness and communication skills.

Where the B Comm (International) can take you
Graduates of the B Comm (International) at the J.E. Cairnes School of Business & Economics are highly successful and sought after in all areas of Business. Graduates go on to work in a variety of careers including:
- EU institutions such as The European Central Bank, The Diplomatic Service and The European Parliament
- Accounting - both professional practice and industry.
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking & Insurance)
- Information Systems Management

Graduates of the course can also go on to study on a wide variety of postgraduate programmes in their chosen discipline in the J.E. Cairnes School of Business & Economics.

Graduate Profile
Spending four years studying Commerce with German was a decision that I will be forever grateful for. Studying German in university was a fantastic experience. Smaller interactive class sizes combined with dedicated lecturers greatly enhanced the learning experience. This course gave me the competitive edge through a combination of business and language skills to succeed in my career.

Emma Cleere – B Comm (International), Business Development Manager North America at Student Beans
The Bachelor of Commerce (International) degree is a four year internationally recognised undergraduate programme which develops students’ Business and Language skills. Students gain knowledge on a broad range of business subjects as well as experiencing life in France, Germany/Austria, or Spain/Chile/Mexico for one year, which gives them an invaluable insight into international business and culture.

This programme provides unique academic, cultural and language opportunities for students. It is designed to equip you with the skills and knowledge to work in a fast-paced and ever changing global business environment.

  - Business Law
  - International Business
  - Operations/Logistics
  - Enterprise

Check out the Bachelor of Commerce International web page and see our interactive Study Abroad map under ‘Why Choose This Course?’!
Why choose Bachelor of Commerce (Gaeilge)?

The B Comm (Gaeilge) has been introduced following demand from students for a programme that combines the study of Business and the Irish Language. All Business subjects are taught through English while students also study Gaeilge throughout their degree.

- Graduates of this programme will not only have a great business qualification but also an in-depth knowledge of the Irish language which will give them a competitive advantage in today’s job market.
- The large range of subjects in the first two years of the programme gives students a broad knowledge of business and allows them to decide which area of business is best for them.
- Our lecturers’ links with industry ensure that the course is up-to-date, relevant and useful to today’s graduates and employers.

Where the B Comm (Gaeilge) can take you

Graduates of the B Comm (Gaeilge) at the J.E. Cairnes School of Business & Economics will be highly sought after in all areas of Business. Graduates can go on to work in a variety of careers including:

- Accounting - both professional practice and industry
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking & Insurance)
- Entrepreneurship
- Teaching

Graduates of the course can also go on to study a wide variety of postgraduate programmes in their chosen discipline, the Irish Language or Education (including Teaching).

This degree is designed to allow graduates to teach both business related subjects and Gaeilge at second level once they have acquired a teaching qualification and meet the Teaching Council’s subject specific requirements.

Work Placement and Gaeltacht Semester:

Year three of the programme is divided between a one semester internship in an Irish-speaking environment and a semester studying in Áras Mháirtín Uí Chadhain, a NUI Galway centre in an Cheathrú Rua. Acadamh na hOllscolaíochta Gaeilge will organise the work experience in conjunction with Údarás na Gaeltachta. Údarás na Gaeltachta has 400 client companies, in various sectors – including biomedicine and pharmacology, ICT, niche manufacturing, audio visual and digital media, tourism, fish processing and aquaculture, renewable energy, food processing and arts and crafts. Students have also been placed with organisations such as Gaillimh le Gaeilge, Foras na Gaeilge and Conradh na Gaeilge etc.

Student Profile

I chose to study the B Comm le Gaeilge as I’ve always wanted to continue the use of Irish throughout third level education and onto my professional career. Having not attended a Gaelscoil, I was worried that I’d struggle with the Irish aspect of the course, but I found there was a happy medium between both Irish and English modules. Immersing our small group in a Irish language environment in third year, both with a semester studying in the Gaeltacht and a semester work placement in an Irish business environment, has really prepared me for my final year and the working world.

Kayleigh Laffey, B Comm (Gaeilge)
Web Content Specialist at Production Equipment Ltd
This is a four-year degree programme in Commerce including the study of the Irish Language, allowing students to develop their language skills while gaining valuable insights into business and culture. This programme provides unique academic, cultural and language opportunities for students. This degree will equip you with the skills and knowledge to work in a fast-changing business environment.

Year 3 of the programme is divided between a one semester placement/internship in an Irish-speaking environment and one semester of Irish-medium studies at NUI Galway’s Gaeltacht campus in An Cheathrú Rua.
Fact File

Programme Code: GY207
Duration: 3 years/(4 years*)
Average intake 30
Minimum points for entry in 2018: 473

Entry Requirements: A minimum of a H4 in Accounting is required. Along with this a minimum grade H5 in one other subject and passes in four other subjects (at O6/H7 level) in the Leaving Certificate, including: Irish, English, another language, Mathematics and any other subject recognised for entry purposes.

The B Comm (Accounting) is the only degree in Ireland requiring leaving certificate accounting as an entry requirement, therefore, you will move onto a more advanced and intensive study of accounting in 1st year with minimal time needed to review the basics.

Why choose B Comm (Accounting)?

- Graduates of this course will receive the maximum exemptions available to the programme from examinations set by the large professional bodies who train and accredit accountants and finance professionals in Ireland.
- The limited number of places on this course means that students benefit from small classes in some of the key accounting modules.
- According to Grad Ireland, there are more job opportunities in accountancy and financial management than any other area. They also report that accounting graduates are the most satisfied that their degree equipped them with the requisite skills for today’s labour market.
- A key feature of the B Comm (Accounting) is our emphasis on the development of our students’ personal and transferable skills for the workplace through our Skills for Business module in 2nd year and our Innovation: Creativity and Enterprise module in final year.
- Our lecturers’ links with industry ensure that the programme is up-to-date with current and emerging trends and our students benefit from guest lecturers who bring insight into the role and challenges facing accountants in industry and practice today.
- Students taking the optional Global Experience & Work Placement year and those who participate in summer internships with accounting firms embed their knowledge in a practical context. This experience can be formally incorporated into the programme as a full module credit in final year. The majority of our students on completion of their placement are offered contracts of employment to take up after completing their degree.

Where the B Comm (Accounting) can take you

This degree provides a gateway to a successful career in accounting, taxation, corporate finance and related professions. Many of our graduates will be recruited by Accounting firms where they will complete their training as professional accountants or tax specialists. Others will pursue graduate training opportunities in a diverse range of commercial, industrial, financial service or public sector organisations. Whether employed in practice or industry, the salaries and career prospects are excellent. Many accountants use their professional qualifications as a springboard to top management positions.

There are also plenty of opportunities for post graduate study after completing the B Comm (Accounting). These include a Master of Accounting programme and the MSc (International Accounting & Analytics), which are offered at NUI Galway, or Masters programmes in Banking, Economics, Corporate Finance, Taxation and related disciplines such as proceeding into 2nd year of the LLB (Law Degree) Programme.

Visit the Bachelor of Commerce Accounting web page to see full list of Professional Accounting Body Examination Exemptions - 2017/18.

Student Profile

Moving into third year, I chose to do the Global Experience year. A four month exchange programme was followed by a six-month work placement in PricewaterhouseCoopers. The B Comm course allowed me to specifically focus on accounting, but also gave me an excellent opportunity to broaden my knowledge of other business subjects.

Patric Evason, B Comm (Accounting).
The Bachelor of Commerce (Accounting) is a three year undergraduate degree at NUI Galway combines a broad-based business education with the advantages of a specialist programme for those interested in a career in accounting or a related discipline. This programme offers excellent levels of exemptions from the examinations of all of the major professional accountancy and taxation practitioner bodies. Our internship and placement partners include: PWC, KPMG, Deloitte, EY, Grant Thornton, DHKN, Crowe Howarth, Supermacs and Mazars.

*4 years with optional Global Experience & Work Placement year.

**Global Experience and Work Placement***

Students have the opportunity to add an international experience dimension to their degree at the end of second year, when they can apply on a competitive basis to transfer from the three year B Comm (Accounting) degree to the four-year B Comm (Accounting) with Global Experience degree. Successful applicants will spend one semester of third year studying abroad through English and a second semester in a work placement. The students will then return to NUI Galway for fourth year to complete their degree.
subjects recognised for entry purposes

Fact File

Why choose Business Information Systems?

- EPAS Accredited: This programme confers to the highest international standards.
- Excellent employment opportunities: Our graduates are employed by Accenture, Avaya, CISCO, Google, KPMG, Deloitte, Intel, Lawler Developments, Lionbridge, Pramerica and IBM to name just a few.
- The BIS Global Learning Initiative delivered in partnership with prestigious foreign universities, is designed to incorporate an international learning experience into the programme and includes an opportunity to study abroad, take up foreign work placement, participate in international virtual teams and learn from guest international speakers.
- The BIS Industry Engagement Initiative includes a paid work placement and site visits to leading multi-national companies. Our membership of the SAP and Microsoft University Alliance provides our students with access to the latest industry software while our Industry Advisory Board ensures that the skills, methodologies and theories that you learn are consistent with industry needs.
- Study Abroad: BIS students have the option to study abroad in our partner universities in year 2. Some of our partners include City University Hong Kong, Kogod School of Business (Washington DC, USA), Montana State University (USA), Lehigh University (NY, USA), and the University of Liechtenstein.
- The small classes mean that you will get a more personal experience.
- The dedicated BIS facilities are excellent and include three computer suites, a seminar room and a collaborative learning facility.
- The blend of business, technology and technology management makes holders of the degree particularly attractive to a diverse set of employers.
- New modules introduced on our BSc (Business Information Systems) include Cybersecurity, Implementing Digital Innovation, and Advanced Research Topics in IS.

Where the BIS programme can take you

98% of BIS graduates are now in degree related employment. The mix of business acumen, technology skills and management knowledge combined with communication and team skills makes Business Information Systems graduates valuable assets to any organisation. Our graduates pursue careers across a wide spectrum of job titles. Many choose to focus on their business skills and pursue careers as diverse as entrepreneurship, sales, management, or non-business careers such as teaching or law enforcement. Other graduates focus more on their technology skills and pursue more specialist careers such as:

- Business analyst - defining the optimal technology to drive business.
- Software tester/ developer - application development and testing.
- eCommerce consultant - leveraging internet related technologies for business.
- e-Business specialist - managing supply chains or customer relationship management systems.
- IS manager - managing the range of hardware, software and networking equipment in any organisation.
- Specialist IS consultant - working with enterprise systems such as SAP or Oracle.

BIS gives you the flexibility to define your career.

Graduate Profile

The BIS undergraduate degree is the perfect blend of business and computers. If you’re interested in one, or both of those areas, I would 100% recommend this course to you. The lecturers and staff in J.E. Cairnes School of Business & Economics help you to develop an understanding of both worlds. This is something which we all see becoming a much more blurred line and the need to understand both sides is growing.

Having the opportunity to learn about programming languages, databases & new and emerging technologies helps to make you really well informed student. This, coupled with an understanding of management principles, accounting and economics let’s you mix and bring together all your other learnings in each module. The course and classes themselves are very personable. The small class sizes really helped with my learning, and having small numbers ensures you don’t get left behind, and can have a personal relationship with each lecturer.

Through the study abroad option in second year of the course, I got to study in Villanova University with the help of a scholarship programme. While there, I got to study new modules, increase my knowledge in areas I liked, and even made long lasting connections and friends which I still use today.

My current role is with Accenture where I am working in the Cyber Security field helping clients devise state of the art strategies to protect and secure payments.

Brian Barrins,
BSc. BIS,
Technology Analyst at Accenture
Business Information Systems (BIS) is an EPAS accredited innovative 4-year undergraduate degree that explores the use of technology in the modern business environment. Incorporating skills development in technology, business and technology management through individual, team and virtual team project work combined with our global learning and industry engagement initiatives. The B.Sc in BIS degree provides you with the ideal platform for a successful career in business.

### Additional Subject Options
- Final Year Project
Why choose the BSc. in Financial Mathematics & Economics?

- **Excellent employment opportunities:** The demand from employers for well-qualified students with knowledge of how financial markets operate and how to use quantitative techniques to make informed investment decisions is substantial.
- **Broad, multidisciplinary programme:** With contributions from four different disciplines at NUI Galway, the multidisciplinary nature of this programme is explicitly designed to be broader than the specialised actuarial programmes being offered by other Irish universities.
- **Actuarial exemptions:** The Faculty and Institute of Actuaries recognises this programme for exemptions from several professional CT level subjects.
- **Cutting-edge learning:** Students will apply their learning to current and emerging trends in areas such as fintech, cryptocurrencies (such as Bitcoin), payments technologies, as well as the mathematics of artificial intelligence and blockchain technology.
- **Guest speakers from financial services:** Ensure that students gain practical insights into industry developments.
- **Student Managed Fund (SMF):** Using real money and buying actual shares in companies, the student-run fund gives those pursuing the Financial Mathematics & Economics programme the opportunity to learn how investment management works in practice. Students typically move from analyst roles in earlier years to become fund executives in later years.

Where the BSc. in Financial Mathematics & Economics can take you

- **Financial services** – opportunities for graduates exist right across the financial services sector: in investment, corporate and private banking, in currency trading, in credit risk and in management of hedge funds. Some of the world’s leading financial firms have hired our graduates, including Goldman Sachs, JP Morgan, Merrill Lynch and Credit Suisse.
- **Actuarial profession:** graduates can embark on a career as an actuary, working primarily in pensions, life insurance and investments. About one quarter of our graduates in recent years went on to complete postgraduate actuarial studies and some graduates went directly on to positions as trainee actuaries. There are currently more actuarial opportunities in Ireland than there are graduates each year.
- **Other areas** – opportunities for our graduates exist in government departments and other public sector bodies, where they play key roles affecting the national economy. In recent years, graduates have been hired by the Department of Finance, the Central Bank of Ireland, the Bank of England, and the National Treasury Management Agency (NTMA). Moreover, because of their strong numeracy skills, graduates have also secured employment in a wide variety of different areas, for example, as economists, in accountancy, tax and law, in management consultancy and even as a sports odds compiler.

Graduate Profile

When I left school, I was not sure what I wanted to do, so I thought it best to keep my options open. I have now started as a trainee actuary and the groundwork I have already completed on my undergraduate programme is invaluable.

Noel Lawless  BSc. in Financial Mathematics and Economics, Head of Portfolio Management at VHI Healthcare
The BSc. in Financial Mathematics and Economics (BSc. in FME) programme is a four-year degree programme consisting of courses in Mathematics, Economics, Statistics/Probability, Applied Mathematics, Accounting and Business Finance and Computer Science. The aim of the programme is to equip students with expertise in quantitative subjects with a particular focus on financial economics, actuarial mathematics and statistics.

For more information about the BSc. in Financial Mathematics and Economics, Call: 353 91 493121 and have a look at the programme website: www.fme.nuigalway.ie

Why study economics as part of a BA?

In addition to the option of studying economics as part of a business degree, NUI Galway also makes economics available as part of the BA Joint Honours degree. In this programme, students choose three subjects in first year, and continue with two of those subjects in second and final year. So one might end up with a BA Joint Honours degree in economics and geography, or economics and law, for example.

There is a very wide range of subjects one can combine with economics through the BA route (although not the main business disciplines available in the B Comm degrees).

The level and range of economics in both the BA and B Comm routes are the same: the difference is the combination of other subjects available to you in each. In either case, we do not expect you to have taken economics before e.g., at Leaving Cert level: we teach economics ‘from scratch.’

Economics is an exciting and challenging area of study, and has never been more relevant for so many people. Studying economics gives you an insight into the many economic relationships in the real world around you. It provides an introduction to the analytical tools you need to help explore and understand these fascinating relationships. It gives you the opportunity to deepen your understanding of current affairs, the economics of the market place, economic factors influencing politics and how economic issues have influenced the course of history.

In introductory economics courses, you first encounter the key analytical tools which economists use to understand markets and economies, and the role of governments in them. These tools are immensely useful for better appreciating developments in the economy, nationally and internationally. They are also foundations upon which more advanced work in specific areas of economics can later be built, opening up varied and challenging landscapes for enquiring minds.

Specialist study in economics

You can extend and deepen your study of economics in many directions, depending on your aptitudes and interests in the BA degree.

For some economics students, later years’ study involves deep engagement with the economics of public policy, such as the economics of health, the economics of education, or the economics of the environment.

Similarly, an economics student may have options to delve further into macroeconomics and financial economics, through courses in the economics of money and banking, the economics of international trade, or the theory and empirics of long-run economic development, for example.

International links

As part of the BA (International) programme, you may have the option in your third year of studying economics abroad in a European university which teaches through English. For example, students recently have spent a year in universities in Germany, Sweden and the Netherlands.

Career options

A degree in economics provides you with a wide array of both subject-specific and transferable skills, of enormous importance to the world in which we live. Graduating with a degree in economics can lead to working for a variety of employers, including governments, private companies and non-governmental organisations (NGOs).

Student Profile

This degree gave me a great deal of economic and legal knowledge in a stimulating environment conducive to discussion and learning. The skills obtained were a springboard that opened up a range of professional opportunities as a public policy economist. Galway itself is a wonderfully vibrant student city.

Tom McDonnell  BA (Economics and Law).
Where can your Business Degree take you?

We have university partners in the following countries:

Some of our graduates include:

**Richard O’Brien**  
TALENT ACQUISITION SPECIALIST, ADIDAS GROUP  
“Richard graduated with a B Comm (2011), specialising in Human Resources. He then went on to complete an MSc (Strategy Innovation and People Management) “Commerce equipped me with the communication, teamwork and problem-solving skills needed to excel in business. After graduating, I was well-positioned to pursue an exciting and successful career in Human Resources.”

**Siobhan McGinty**  
INTERNATIONAL CHAMPION, CUSTOMER MARKETING (EMEA, LATAM & APAC) AT HUBSPOT  
“I studied Commerce and specialised in Marketing. I’ve gone on to pursue a successful career as an International Customer Marketing Manager at HubSpot, a leading growth platform with 48,000 total customers in more than 100 countries. I’ve also set up my own business called Learn Inbound, and I lecture part-time on the MSc (Marketing Practice) here at NUI Galway. I cherish my memories of being a student at NUI Galway. There are so many social outlets on-campus, and the clubs and societies are a great way to develop social skills and get to know people.”

**Anne Marie O’Toole**  
MARKETING MANAGER KINGSFAN FRANCE & ISOCAB FRANCE  
“I can safely say that all skills that I now use on a daily basis were unleashed and developed while studying the B Comm (International) at NUI Galway. Interpersonal and teamwork skills are paramount in college and even more so in a professional position once you are out of university. Having spent a year in Poitiers on Erasmus, my cultural and linguistic competences were also vastly improved. The hands on case study work done during our final marketing stream was also a great lesson in time management, people management and developing organisational skills.”

**Dave Hickey**  
GROUP CHIEF EXECUTIVE, CONNACHT TRIBUNE  
“Galway is a great place to live and study. The degree courses offer a wide range of options across most areas of business.”
