## General Information and Support

### Academic Programme

1. Students are free to select modules (i.e. courses) from a wide number of disciplines in different years.
2. You are being provided with comprehensive module lists. You should consider the range on offer before making your selection.

**IF A MODULE IS NOT LISTED IN THIS BOOKLET,  
DO NOT REGISTER FOR IT**

### 3. No change to the lecture schedule or examination timetable can be made

Should two of the modules in which you are interested clash on the lecture schedule, you must choose between the two.

### 4. Academic Load:

Modules are credited in ECTS (European Credit Transfer System). The ECTS protocol allocates 60 credits to a full academic year's work, and 30 credits to a semester's work. Visiting Students may, at their discretion, take fewer or more credits but should carefully consider the implications, from the point of view of transferring credit, of taking less than the full-time quota.

### 5. Examination:

- (a) The University will only certify examination results when the results have been obtained at the formal assessments. **Consequently, you should not attempt to make arrangements with individual members of staff regarding the substitution of essays or other coursework for formal examinations. Such arrangements, if made, will not be recognised and a result for the module in question will not be returned.**
- (b) Please consider the notes on Examination Timetables in 8 (b) overleaf. Disciplines will advise of arrangements for modules being examined by essay.
- (c) Continuous assessment elements and / or essays may form part of the assessment process in any module.
- (d) Homeward travel: **Do not plan to travel before the Examination Session is over!**

### 6. Examination Standards
