Academic Information

Teaching Methods
Teaching will be by means of lectures, seminars, dramatic performances, movies, guided field trips and informed contact with the music, language and people of Ireland. An interdisciplinary approach will be used within each course and between the courses of the Irish Studies programme. Students will have access to library, audio and visual facilities of the University. Assessment for those requiring credit will be carried out on a continuous basis.

Credits
In order to quantify learning and to place a value on it, courses are divided up into credit units. Credits may vary, however they represent a standard number of class contact hours and average workload for a programme. This workload includes lectures, practical work, seminars, educational excursions, field trips, private work and examinations. The use of the term credits is a common one among the third level sector and provides a “currency” with which students may transfer from one course to another or gain exemption from elements of a particular programme.

Each Irish Studies module carries 3 Semester Credits/6 ECTS Credits at undergraduate level.

Assessments

Assessment for all students requiring credit for each 3 Semester Credits/6 ECTS Credits course will be as follows:

1. Attendance at lectures, workshops/performances, fieldtrips and participation in seminars
2. Continuous assessment (through written assignments) and/or exam assessment.

All courses have a parity of assessment work load; details of exact assessment requirements will be provided at local course level.

Guidelines for all assessment will be given by Course Directors during introductory classes.

Graduate Credit
In addition to the assessment requirements above, an extended essay will be required for graduate credits.

Graduate Students must arrange to meet with their course lecturer for essay topic approval.

Students are asked to note that work submitted should be original work in accordance with University plagiarism regulations. It is not permissible for students to submit the same essay for more than one course. https://www.nuigalway.ie/plagiarism/

Blackboard Learning System
All summer school students who have registered with NUI Galway have automatic access to the Blackboard Virtual Learning Environment. This includes access to course information, course announcements, course materials and general notifications.

It is your responsibility as an NUI Galway student to regularly access Blackboard and your NUI Galway email account in order to keep up-to-date with:

- Course announcements
- Course materials
- Assignment requirements
- Assignment submission dates

Details on how to log into Blackboard are available in the appendices section of the handbook.
Irish Studies Programme Outline

Academic Director: Dr. Méabh Ní Fhuartháin
This course will comprise an integrated introduction to Irish Studies incorporating elements from all the contributing disciplines, a series of interdisciplinary seminars focusing on key themes in Irish Studies such as Identity, Emigration, and Religion, and a broad range of elective courses as outlined below. The series of field trips is designed to complement the courses taught in the various modules and is an integral element in the overall course structure.

SS115 Representing Ireland - Literature and Film
SS116 The Archaeological Heritage of Ireland; from the First Settlers to Medieval Castles
SS117 Irish History; Conflict, Identity and the Shaping of Modern Ireland
SS119 Creative Writing: Poetry and Fiction
SS120 Gaelic Culture and Literature; From Cú Chulainn (Cuchulainn) to the Cultural Revival & Beyond
SS121 Irish Society; Stasis and Change in the Ambiguous Republic

SS115 Representing Ireland – Literature and Film
3 US Semester Credits/6 ECTS Credits; Course Director: Dr. Tim Keane
The aim of this course is to analyse the varied ways in which 'Ireland' and 'Irishness' have been represented in a range of English-language media, including fiction, poetry, drama and film. The course will be structured around particular themes such as the representation of 'The West', the contrast between city and country, the politics of theatre, gender identity, and the meaning of Irish nationality. We will be reading works by Irish writers such as W.B. Yeats, James Joyce, Augusta Gregory, J.M. Synge, Frank O'Connor, John McGahern, Brian Friel, Eavan Boland, Patrick McCabe and Claire Keegan. We will also view and discuss a number of films from both American and Irish film-makers. The course will include a visit to Yeats’ Thoor Ballylee and Lady Gregory’s Coole Park estate in south County Galway.

SS116 The Archaeological Heritage of Ireland; from the First Settlers to Medieval Castles
3 US Semester Credits/6 ECTS Credits; Course Director: Dr. Carleton Jones
Ireland’s archaeological heritage is one of the richest in Western Europe. The development of prehistoric Irish societies can be seen in the megalithic tombs of the Neolithic, the wealth of bronze and gold in the succeeding Bronze Age, and in the great royal sites such as Tara and Navan, of the Celtic Iron Age. From the Early Christian Period, monastic ruins and high crosses survive at sites such as Clonmacnoise, while the finds from Dublin tell us of the Viking raids and settlement. The remains of later earth and timber fortifications and stone castles reveal the story of the Anglo-Norman invasion and subsequent power struggles.

This course charts the evidence for human societies in Ireland over ten millennia from the island’s initial colonization by small groups of hunter-gatherers, through to the Medieval period. The archaeology of the entire island of Ireland will be covered with particular emphasis on the archaeology of the Burren, a remarkable upland area just south of Galway where archaeological remains of all periods are well preserved and visible.

NUI Galway is ideally positioned amongst some of Ireland’s most well-preserved archaeological landscapes and this course includes two trips to the nearby Burren region to visit some of the prehistoric and historic-period sites which are highlighted in the lectures. This region is the focus of Course Director Dr. Carleton Jones’s research and students will have the opportunity to see first-hand some of the sites that Dr. Jones has excavated as well as learn about on-going research involving cutting-edge techniques such as ancient DNA and stable isotope analyses.

SS117 Irish History; Conflict, Identity and the Shaping of Modern Ireland
3 US Semester Credits/6 ECTS Credits; Course Director: Dr. Tomas Finn
This course offers a broad survey of Irish history. The initial lecture will set the stage by considering some aspects of the early and medieval periods, but the principal focus will be on the modern centuries, beginning with the Tudor conquest of Ireland. By charting the history of Anglo-Irish relations through major political and military conflicts in the seventeenth and eighteenth centuries, special attention will be given to the British attempt to assimilate Ireland under the Act of Union from 1801. We will examine the mass social and political campaigns that emerged in the nineteenth century and the rise of the modern
ideologies of Irish unionism and nationalism, including the influential Irish-American dimension of the latter, which took shape in the decades after the Great Famine (1845-50). Ultimately the course will examine the undoing of the Union between Britain and Ireland in 1921, the nature of the partition agreement which underpinned the constitutional settlement at that time, and how sustained violent conflict in Northern Ireland from the late 1960s, forced politicians and political leaders in these islands and beyond, to revisit the 'Irish Question'.

The approach taken in this module is thematic. Classes will consist of a mixture of lectures and discussions; and to facilitate a closer treatment of one of the central themes of the course, a class debate will take place, mid-term, in one of the historic buildings in Galway. Choice readings and links to two award-winning documentaries will be made available on the electronic Blackboard site during term.

SS119 Creative Writing: Poetry, Fiction & Memoir
3 US Semester Credits/6 ECTS Credits; Module Director: Kevin Higgins
This course will explore the writing of fiction and poetry from first steps to final polish. How do poems begin, what can we use as a starting point for our stories, how do we sustain a poem or a story to its proper conclusion? Through various reading and writing exercises, this course will road test several experimental techniques which can be used to spark new work and ideas. The course will work towards having the student complete a significant piece of work to a high degree of finish.

Typically, each class will feature a short writing exercise based on a classic text; in the workshop section students will have their work discussed by the class. Students can expect to have their work constructively commented on at each class by the class group and Module Director for the duration of the course. Feedback will be given by the tutor throughout and upon receiving the final grade. The final portfolio of work will be graded on its imaginative skill and originality.

SS120 Gaelic Literature and Culture: From Cú Chulainn to the Cultural Revival and Beyond
3 US Semester Credits/6 ECTS Credits; Module Director: Dr. Liam Ó hAisibéil
Gaelic literature is the oldest vernacular literature in Western Europe; this course introduces the student to early Gaelic narrative literature and gives insights into the culture(s) which created it. Students read and interpret a selection of texts in translation, including tales of Cú Chulainn and the Ulster Cycle, Fionn mac Cumhaill and the Fianna and tales of the Otherworld, and develop skills in engaging critically with this literature. The second part of this course explores Irish folklore and the oral storytelling tradition and examines the emergence and development of modern Gaelic literature from the period of the Cultural Revival in the late-nineteenth century. Through the reading of selections of Gaelic prose and poetry in translation, students gain insights into the rapid changes within Gaelic culture from the nineteenth century as represented in folklore and literature. While demonstrating an intimate awareness of formal and thematic developments in a broad range of world literatures, contemporary Gaelic prose and poetry engages closely with earlier sources within the Gaelic literary, oral and cultural traditions. The course develops students’ understanding of the dynamic interplay between the traditional and the contemporary within modern Gaelic literature. A knowledge of Irish is not a prerequisite for the course; all classes are through English. Introductory classes in the Irish language will be provided to interested students.

SS121 Irish Society; Stasis and Change in the Ambiguous Republic
3 US Semester Credits/6 ECTS Credits; Module Director: Dr. Jonathan Hannon
Irish society is interesting. Really interesting. It underwent a complex process of dramatic and relatively rapid social change over the 20th Century, propelling it from being a predominantly rural, Catholic, insular, and socially homogeneous society, to become one of the ‘most globalized’ countries in the world, all within just a few short decades. In some ways, it is much the same; in others, it is profoundly different.

In this module we explore, and explain, aspects of this process, and its effects on Irish society, mainly from a sociological perspective. Using the changing economy as a backdrop, we go on to explore transformations in key social institutions, such as religion, education, the family, the media, politics and power, and the changing role and position of women in Irish society. We will also address some of the problems and strains that have emerged, in part, because of these profound societal changes, such as social inequality and social class, immigration and race, and crime. The module is designed to be lively and engaging, and no previous knowledge of either sociology or Irish society is required. It will, however, provide a very useful backdrop to the experience of being in Ireland, and offer valuable and critical insights into ‘Irish identity’, and the ambiguities of social change for a small country in a global society.
Field Trips

Field trips are an integral part of the Irish Studies Summer School and participation is mandatory. The field trips are relevant to the material covered in class and enhance the learning experience. They also offer the opportunity to experience parts of Ireland outside of Galway City.

All students of the Irish Studies Summer School will participate on three field trips to Inis Mór, the largest of the three Aran Islands, Trip two is a visit to the Irish Workhouse in Portumna and to Clonmacnoise which is an early Christian monastic settlement. The final trip visits one of the most famous sights in Ireland, the Cliffs of Moher which are sea cliffs located at the southwestern edge of the Burren region in County Clare. You will be notified on arrival of the dates your group will go on these trips. Please ensure that you do not schedule any other events for those dates.

For the trip to Inis Mór, students will be collected from campus by bus and will take the ferry from Ros a’ Mhíl to Inis Mór. Once on the island, the students will cycle along the quiet roads of the island, led by experienced coordinators. On the island, the students will be guided by a local expert to Dún Aonghasa, a Bronze Age stone walled fort that is built at the precipice of an 85 meter cliff edge. Students will also have free time to experience the Irish language as spoken by the local inhabitants, and later visit the local goat farm and artisan cheese producer, walk along one of the several beaches, or just take in the peace and tranquillity that is island life. This field trip takes place on a Sunday.

Trip two sees students collected from campus and taken by bus to Portumna for a tour of the Irish Workhouse followed by a trip to Clonmacnoise for a guided tour of the Monastic site and audio visual session followed by free time to visit the various historical structures associated with Monastic Site & ruins adjacent to castle.

Finally, on the third trip students will be collected from campus and brought by bus to visit the Ailwee Caves and Birds of Prey after which they travel to the Cliffs of Moher for a self-guided 2 hour period to explore the walkways and enjoy the tremendous views.

Students enrolled on SS116 The Archaeological Heritage of Ireland participate on two field trips to the Burren to visit historic and pre-historical archaeological sites. Students will be collected from campus at 4.00 pm on the designated days and will return to Galway City between 8 - 9.00 pm.

Students of SS115 Representing Ireland - Literature and Film and SS119 Creative Writing participate on a Literary Trip to South Galway where they will visit Coole Park, Thoor Ballylee and Kilmacduagh. This trip takes place on a Sunday with students being collected by bus from the NUI Galway campus in the morning and returning to campus in the afternoon.

Clothing for Field Trips

We organise our field trips well in advance of the summer school, but unfortunately we cannot predict or control the weather. As Irish weather is unpredictable it is best to be prepared for rain or wind, especially on field trips which require you to be outside. Prepare to dress in layers and ensure that you have waterproof clothing and footwear for wet days and sunscreen for hotter days.

In some parts of rural Ireland, you may not be able to use a debit/credit card so ensure you bring cash with you.

We advise you to bring a packed lunch with you on the day trips.

SS15 Representing Ireland: Literature and Film
6 ECTS/3 US Semester Credits

COURSE OBJECTIVE

Fiction, poetry, drama and film have all been used to represent ‘Ireland’ and ‘Irishness’. This course analyses the varied ways this has been done in English-language media. The course addresses key themes such as 'Megalithic Tombs and the Age of the Ancestors', 'The Age of Metal', 'Iron Age Royal Sites', 'The Arrival of Christianity', 'The Vikings in Ireland', etc. The archaeology of the entire island of Ireland will be covered but there will be a particular emphasis on the archaeology of the Burren, a remarkable upland area just south of Galway where archaeological remains of all periods are well preserved and visible. The course includes two trips to the Burren to visit both prehistoric and historic-period sites, some of which have been the focus of course director, Carleton Jones’s own research.

SS117 IRISH HISTORY: Conflict, Identity and the Shaping of Modern Ireland

6 ECTS/3 US Semester Credits

COURSE OBJECTIVE

This course offers a survey of Irish history. The initial lecture will set the stage by considering some aspects of the early and medieval periods, but the principal focus will be on the modern centuries, beginning with the Tudor conquest of Ireland. By charting the history of Anglo-Irish relations through major political and military conflicts in the seventeenth and eighteenth centuries, special attention will be given to the British attempt to assimilate Ireland under the Act of Union from 1801. We will examine the mass political and social campaigns that emerged in the nineteenth century and the rise of the modern ideologies of Irish unionism and nationalism, including the influential Irish-American dimension of the latter which took shape in the decades after the Great Famine (1845-50). Ultimately the course will examine the undoing of the Union between Britain and Ireland in 1921, the nature of the partition agreement which underpinned the constitutional settlement at that time, and how sustained violent conflict in Northern Ireland from the late 1960s forced politicians and political leaders in these islands and beyond to revisit the ‘Irish Question’.

The approach taken in this module is thematic. Classes will consist of a mixture of lectures and discussions; and to facilitate a closer treatment of one of the central themes of the course, a class debate will take place, mid-term, in one of the historic buildings in Galway. Choice readings and links to two award-winning documentaries will be made available on the course Blackboard site during term.

SS119 Creative Writing: Poetry, Fiction, & Memoir

6 ECTS/ 3 US Semester Credits

COURSE DESCRIPTION

This course, given by an established writer is a workshop in the writing of poetry, fiction, and memoir. Students choose the genre they wish to emphasise, engaging in experimentation, writing and rewriting under the supervision of the director. Students will be given writing prompts at every workshop. The workshops involve reviewing, analysing and editing of work in an atmosphere of constructive criticism and mutual support. Module participants will take part in a number of literary events around Galway City, under the supervision of the course director, poet and critic Kevin Higgins, who is co-organiser of Over The Edge literary events.

COURSE OBJECTIVE

Through various reading and writing exercises, this course will explore several aspects of poetry, fiction, and memoir writing from first steps to final polish. The course Director will use tried and tested techniques to get participants writing. He will also work with them on polishing their writing and bringing poems and stories to completion. Students’ work will be read and discussed in class and the entire class will be expected to engage in constructive criticism of and mutual support for each other’s poems and stories.

Participants will attend and participate in two events organised by Galway City’s literary events organisation Over The Edge, for which they will receive credit. Feedback will be given by the course Director on an ongoing basis and with the final grade. The final portfolio of each student’s writing will be graded on its imaginative skill, originality, and also on the progress s/he has made as a writer during this course.

COURSE OUTLINE

Week 1
How do we begin a work of fiction or a poem?
How do we use autobiography in our writing?
The course Director will provide participants with accessible prompts to get them writing.

Week 2
How do we avoid cliché in our writing? How do we ‘make it new’?
The course Director will provide participants with accessible writing exercises to help them make new metaphors and similes from the world around us.

Week 3
How do we deal with controversial topics? Every writer has to deal with the issue of someone possibly being offended by something s/he/they has written, especially if autobiographical detail is used in the writing. The course director will give participants writing exercises which will aim to inoculate them against all such worries.

Week 4
How do we know when a poem or story is finished? Editing is the making, or breaking, of every writer. The course Director will workshop participants’ writing with them, and will work to give them their own editing methods which they can take away from the course.

SS120 GAELIC LITERATURE AND CULTURE: From Cú Chulainn to the Cultural Revival and Beyond

6 ECTS/3 US Semester Credits

COURSE OBJECTIVE

Gaelic literature is the oldest vernacular literature in Western Europe; the first three lectures in this module will introduce the student to early Gaelic narrative literature and gives insights into the culture(s) which created it. Students read and interpret a selection of texts in translation, including tales of Cú Chulainn and the Ulster Cycle and wonder tales of the Otherworld, and develop skills in engaging critically with this literature. Tracing the vicissitudes of the Irish language and its culture from the seventeenth century onwards, the remaining lectures of this module will explore the emergence and development of modern Gaelic literature from the period of the Cultural Revival in the late-nineteenth century and examine recorded Irish folklore and the oral storytelling tradition in the twentieth century. Through reading selections of Gaelic prose and poetry in translation, students gain insights into the rapid changes within Gaelic culture from the nineteenth century as represented in folklore and literature. While demonstrating an intimate awareness of formal and thematic developments in a broad range of world literatures, contemporary Gaelic prose and poetry engages closely with earlier sources within the Gaelic literary, oral and cultural traditions. The course develops students’ understanding of the dynamic interplay between the traditional and the contemporary within Gaelic literature.

A knowledge of the Irish language is not a prerequisite for the course; all classes are through English. Introductory classes in the Irish language will be provided to interested students.

COURSE OUTLINE

4. Mise Éire: Literature, language, and the Gaelic Revival

Irish Society underwent profound and relatively rapid social changes during the 20th century. In this course, we will be using a sociological lens, and the sociological imagination, to examine some of these changes, and their results. As we will see, even planned socio-economic change can have far-reaching unplanned social consequences. The two underlying questions that we will attempt to answer as we move through the course topics are: How has Irish society been changed by the economic transformation that was initiated in the 1950s and What are the main forces shaping Irish society today.

On completion of this course, students will be able to provide a critical analysis of social, economic and political changes that have taken place in contemporary Irish society. They will be have an understanding of the way basic institutions operate within the society; and major social problems facing Irish society today.

The basic texts for this course will be Share, Corcoran & Conway (2012) A Sociology of Ireland (4th ed if possible), Gill and Macmillan and O’Sullivan, Sara (ed.) 2007. General Advice

TIME MANAGEMENT

One of the greatest challenges facing summer school students is time management. You will need to balance the commitments of attending class, doing course work and participating on field trips, while also making time to enjoy all that Galway City and its festivals have to offer. You may also want to visit other parts of Ireland while here. You will have a very busy schedule while in Galway so it is worth considering scheduling time before the start, or at the end of the summer school to allow time to travel and enjoy a vacation. There is also a long weekend scheduled during your stay, which will provide you with an opportunity to make travel plans.

WEATHER/CLOTHING

Ireland has a temperate climate and does not experience extremes of heat or cold. It does however, have high rainfall levels. The weather is unpredictable and can change dramatically in a short period of time.

Prepare to dress in layers and ensure that you have waterproof clothing and footwear for wet days. This is especially important if you are participating in field trips, where you will be exposed to the elements.

The dress code for class will be casual, but you may wish to bring something dressy for nights on the town or a visit to the theatre. Remember to leave room in your bag for souvenirs on the way home.

We recommend you include the following items on your packing list:

- Waterproof walking shoes or hiking boots
- Waterproof jacket and leggings
- A fleece
- Backpack for field trips
- Umbrella
- Camera and memory cards
- Chargers for your electrical equipment
- Power converter/adaptor*
- Sunscreen
- Sunglasses
- Prescription medicines and a copy of your prescription

*The electrical supply in Ireland is 230v 50hz. Plugs use a three-pronged formation. If your electrical devices use a different current, you will need both a power converter and a plug adaptor.

GALWAY FESTIVALS

Four festivals take place during the month of July in Galway City. Galway Film Fleadh, Galway International Arts Festival and Galway Fringe Festival, bring visitors from around the world to experience the best in music, film, theatre, literature and visual art. 1. Getting Started with Blackboard

Blackboard is a Virtual Learning Environment (VLE). A virtual learning environment is a web-based application designed to facilitate lecturers in the management of modules for their students, especially by helping lecturers and learners with course administration. They are used to supplement face-to-face lectures and tutorials.

Blackboard is the VLE in use at NUI Galway. It allows students to download lecture notes, reading lists, assessment information and other course-related material from their Blackboard sites. It also contains functions that enable students to interact via class announcements, email, discussion boards. It’s easy to upload any materials (e.g. Word files, PowerPoint slides, PDFs, etc) and to create simple quizzes, arrange for electronic submission of course work by students, establish online discussion areas, etc.

Not all academic staff will use Blackboard to support their face-to-face teaching.

2. Logging In

Students can access Blackboard by going to https://nuigalway.blackboard.com and logging in using their CASS username (Student ID in the format 0000123) and password.

What if I have no courses after I log in?

You will automatically see any modules on which you are registered after you log in. Some may be listed as “unavailable”. This simply means that your lecturer isn’t using Blackboard for this course, or hasn’t made it available to students yet.

What if I cannot log in?

If you cannot log in, please check that you have registered for the current academic session with the university. If you are not a registered student in the current year, you will be unable to access Blackboard. Blackboard is integrated with the Student Records System (Quercus). Each evening the Student Records System sends data to Blackboard enrolling all registered students on their corresponding Blackboard courses. After this time, registered students will be able to log in to Blackboard and access the system.

If you cannot log in, please check that:
1. You have the correct username and password. To log in you will need your correct Student ID number (eight digits) and the password you would use to access your NUI Galway email and all computers on campus. If you do not know this information, contact the User Support Centre in ISS (servicedesk@nuigalway.ie or 091 495777) 2. You have registered for the current academic year with Admissions. All information concerning registration for the academic session 2011-2012 is posted on the Registration Website at www.nuigalway.ie/registration
