NUI Galway: Mission, Vision, Values

Our Mission
To foster a vibrant community of students and staff, where distinguished learning, impactful research, and creative thinking are shared with the world.

We will fulfil this mission over the coming years with renewed vision, and with our eyes firmly on the opportunities and challenges ahead.

Our Vision
NUI Galway will be a leading global university, renowned for our distinctive areas of research, recognised as an institution of choice for our teaching and scholarship, celebrated for our outstanding engagement with wider society, and enriched by a dynamic network of partnerships.

Our Values
The activities and work of NUI Galway are underpinned by five core values:

- **Ambition** – we share a drive for excellence and leadership, working to a common purpose with confidence in our mission
- **Creativity** – inspired by our unique location, a distinctive spirit of creativity imbues everything we do
- **Impact** – our engagement and actions will make a meaningful difference in Galway, across the country, and around the world
- **Collaboration** – strong, mutually-beneficial partnerships are at the heart of our approach, as we engage locally and internationally
- **Integrity** – building on our rich heritage, we value openness, diversity and good citizenship
NUI Galway brand marks

Our corporate identity communicates and embodies all the attributes that characterise the unique personality and positioning of NUI Galway.

Our identity is an investment in our future and, like any investment, it requires careful management to protect it and to allow it to grow in value. We have prepared these guidelines to ensure it is used in a considered and effective manner.

Our corporate identity system is composed of a toolkit of core elements working in concert. These core elements are our brand marks, our colour palettes and typefaces and our copy-style.

Brand mark
Our brand marks identifies us and expresses our brand values and our corporate strategy.

What is a brand mark?
‘Brand mark’ is the precise term we use to describe the combined form of our clock tower symbol and our logotype panel as they appear in a defined relationship.

The clock tower symbol
Our strong and distinctive clock tower symbol is an expression of our market positioning.

The logotype panel
The words NUI Galway and OÉ Gaillimh have been specially drawn and outlined in artwork. They should never be replaced by any other typeface.

NUI Galway name
Our brand mark displays the names NUI Galway and OÉ Gaillimh. Our full legal name remains National University of Ireland Galway and Oileáin na hÉireann Gaillimh and is still used in certain instances, refer to page 48 for further information. We have chosen to rationalise our name for general usage. This will clarifies our message and assists us in establishing our brand nationally and internationally.
NUI Galway brand marks and the NUI Galway crest

We use our brand mark for all marketing and communications purposes.
We limit the use of our coat of arms to certain formal purposes.

Use the NUI Galway brand mark on
- Student prospectus
- Promotional literature
- Website
- Stationery
- PowerPoint presentations
- Display stands
- Advertisements
- Campus signage
- Merchandise
- Research papers
- Reports & publications
- Other applications, as appropriate

Use the NUI Galway crest on
- Degrees and other parchments
- Ceremonial applications
- Formal university documents
- Formal regalia
- Formal personal invitations
- Formal recognition gifts
- Items for the President’s Office
- Other applications, as appropriate
NUI Galway brand mark

Quality
Our brand mark has been specially created and, to ensure it continues to perform at its best, it must not be redrawn in any way.

In order to preserve the quality of our brand mark it should always be reproduced from digital master artwork supplied by the NUI Galway Marketing and Communications Office.

Master artwork files
Master artworks are available for download from www.nuigalway.ie/staff or from Brid Seoige, Brand Officer at brid.seoige@nuigalway.ie / 091 494 144

Duplicating the brand mark by any other means will lead to an unacceptable deterioration in artwork quality.

Construction and lock-up
The relationship between the clocktower symbol and the logotype in the NUI Galway brand mark is shown below.

Minimum size
Do not reproduce the brand mark at sizes less than 15mm wide.

Clearance zone
To ensure that nothing interferes with the brand mark’s visibility in printed applications, we have created a protective clearance zone to set off the brand marks from type, photographs and illustrations. The rectangles shown below represent the minimum clearance zone.

Preferred position in layouts
The brand mark should appear in the top left of the layout. It should be inset a distance at least equal to the height of the brand mark.

Naming and lock-up of elements of the brand mark.

Minimum size of the brand mark.

Clearance zone of the brand mark.

Construction reference of the brand mark.
NUI Galway colour and monochrome brand mark master artworks

Master digital artworks for our brand mark is available from the NUI Galway Marketing and Communications Office. The brand mark may not be used without the express permission of NUI Galway.

**File formats**
For high-end print applications Adobe Illustrator CS2 files are available in both AI and EPS file formats. For in-house use Windows compatible files are available in TIFF format for output to colour printers and in JPEG format for use on-screen.

**Note for Microsoft Word users**
Word is unable to open eps and AI format files. To place eps files into Word documents use the Insert – Picture – From File... command.

**Special Irish First version**
A version of the brand mark with the Irish language on top is available for use when required.

**Colour versions**
These artworks have been created to print our brand marks using the four-colour process only. There are no spot Pantone colour artworks.

**Monochrome versions**
These artworks have been created to print our brand marks in black on any lighter background.

Our brand mark should never be reproduced in any colours other than those specified in this document. See page ten.
NUI Galway brand mark usage guidelines

There are precise standards for preserving the integrity of our brand marks. These standards exist to ensure that our brand marks’ impact and recognition value will not be diluted through alteration.

It is important that we use our brand marks correctly ourselves and make sure that others authorised to use them also understand and practise proper use.

1. Do not alter the colours of the brand marks.
2. Do not create any alternate monochrome brand marks.
3. Do not replace the logotype text with any typeface.
4. Do not use the logotype panel without the clock tower panel.
5. Do not change the position or ratio of any elements within the brand marks.
6. Do not distort the brand marks. When placing the brand marks into MS Word ensure that they are not condensed along either axis.
In order to preserve the quality of our brand identity across all applications, please use our brand marks according to these guidelines.

Do not remove the white keyline around and between the clock tower panel and the logotype panel.

Do not add a stroke to the white keyline to make it visible on light-coloured backgrounds.

Do not remove the colour panel behind the logotype.

Do not combine the brand marks with other names in any manner other than those specified in these guidelines.

Do not create any sub-brand or variant marks incorporating any elements of the NUI Galway brand mark.

Do not create any sub-brand or variant marks incorporating any elements of the NUI Galway brand mark.
NUI Galway primary colour palette

Our primary colour palette is composed of the four colours used in our brand mark. These colours are also used in our core branded applications including stationery.

NUI Galway Mulberry can be achieved by matching the following four-colour process specification.
Pantone DS 167-1: C 50, M 100, Y 0, K 40.
RGB: Red 104, Green 0, Blue 92.
Hex: #67005b
RAL: 4008

NUI Galway Midnight Blue can be achieved by matching the following four-colour process specification.
Pantone DS 202-2: C 90, M 70, Y 30, K 30.
RGB: Red 44, Green 60, Blue 100.
Hex: #2c3c63
RAL: 5009

NUI Galway Jade can be achieved by matching the following four-colour process specification.
Pantone DS 269-6: C 45, M 0, Y 35, K 25.
RGB: Red 126, Green 169, Blue 150.
Hex: #7da995
RAL: 6027

NUI Dusk Blue can be achieved by matching the following four-colour process specification.
RGB: Red 127, Green 186, Blue 201.
Hex: #7ebac9
RAL: 6034

All of the four-colour process values given here are from the Pantone Process Coated Swatch Library file in Adobe Illustrator CS2 (2005).

For accurate colour standards, please refer to the current edition of the Pantone colour formula guide. Pantone is a registered trademark of Pantone, Inc.

The colours shown on this page and throughout this document are not intended to match the Pantone colour standards. This PDF file displays in RGB colour values and cannot be considered accurate for colour.

The Pantone colour references are the definitive colour specifications. The nearest equivalent RGB and Hex references are also shown. Note that the rendering of these may vary depending on the colour settings of any particular monitor. RAL colours are to be used for signage only. There are far fewer colour specifications in the RAL range than in the Pantone system. The RAL colour specifications given above are approximate equivalents of the Pantone references only. These are acceptable for small or one-off signage projects. For large scale signage projects signage contractors should be instructed to have their paint suppliers prepare special colours to exactly match the specified Pantone colours.
Section one: Core elements

NUI Galway secondary colour palettes

These secondary colours are used to add variety and to provide the flexibility needed in creating communications for all of our varied audiences.

These colours are used in our literature and online communications. They are not intended to be associated with, or monopolised by, any individual unit or division.

The many combinations possible from these different colour groups provide more than enough scope for the range of communications that we produce. These colours are not to be used in signage.

Typeface for use by agencies

Importance
The typeface used in creating documents is as important as the correct use of our brand mark, colour palette and tone-of-voice. The typeface contributes to the overall look and feel of our publications and helps create a distinctive NUI Galway appearance. The correct typeface should always be used.

Creative use by agencies
The Arno Pro typeface family is to be used for our brand communications.

This typeface family includes a comprehensive suite of optical font weights, which have subtle design variants depending on the version selected.

The font sets are designed for use at different sizes and are labelled in increasing size order:
- Caption <8 point.
- Small Text 8–10 point.
- Text 10–14 point.
- Subhead 14–24 point.
- Display >24 point.

Arno Pro should be used for all brochures, leaflets, marketing material, advertising, pre-printed stationery, signage and other applications where design agencies, advertising agencies and printing companies may be involved.

Arno Pro is published by Adobe and it is included with Adobe Creative Suite cs2 or it can be purchased online at www.adobe.com

Wayfinding signage
For on-campus wayfinding signage only Museo Sans may be used. This sans serif font may not be used for any other NUI Galway applications.
Typeface for use in-house

The Times New Roman typeface family is the typeface for use on all communications produced in-house. Times New Roman is supplied with most standard Microsoft applications and is available on the majority of PCs. It is the preferred typeface for the content of letters, memos, presentations and any other material generated within NUI Galway. This typeface family has a minimal amount of weights and styles, making it efficient for everyone to use in standard applications.

Times New Roman should not be used in any of our marketing material, such as brochures and advertising. It should not be used on any other branded material, such as signage or merchandise.

Times New Roman Regular

`abcdefghijklmnopqrstuvwxyzABCDEFGHIJKLMNOPQRSTUVWXYZ1234567890!@£%&*’”;’[]\` correspondence

Times New Roman Italic

`abcdefghijklmnopqrstuvwxyzABCDEFGHIJKLMNOPQRSTUVWXYZ1234567890!@£%&*’”;’[]\` presentations

Times New Roman Bold

Times New Roman Bold Italic

`abcdefghijklmnopqrstuvwxyzABCDEFGHIJKLMNOPQRSTUVWXYZ1234567890!@£%&*’”;’[]\`
Relationship of unit names to brand marks on A4 covers

On A4 covers the brand mark should always appear in the top left corner. At A4 size it is 17mm high, inset 17mm from top and left edges.

One-line names are aligned through the centre line of the brand mark.

Two-line names are aligned with one line of text above and below the centre line of the brand mark.

Three-line names are aligned with their second line through the centre line of the brand mark.

Four-line names are aligned so that their first three lines are in the same position as three-line names with all subsequent lines falling below (i.e. not two lines above and two lines below). This configuration keeps to the principle that no element of the unit name should appear above the brand mark.

For names longer than four lines use the same principle as four-line names.

Unit name type specification
Arno Pro Semibold, 13 point on 17 point line-spacing, with kerning set at optical +6.

Do not increase the size of the unit name beyond this size. This complete lock-up can be scaled proportionally for other A-sizes.
Typesetting unit names

Correct
Always typeset the unit names in upper and lower case letters in the Roman font sets within Arno Pro, our corporate typeface family.

Incorrect
This incorrect example uses one of the Italic font sets within Arno Pro, our corporate typeface family.

Incorrect
This incorrect example does not use Arno Pro, our corporate typeface family.

Incorrect
This incorrect example is typeset in all upper case letters.

Incorrect
This incorrect example is typeset in all lower case letters.
Relationship of full legal name to the brand marks on A4 covers

On A4 covers using the full legal name of the university the brand marks should always appear in the top left corner. At A4 size it is 17mm high, inset 17mm from top and left edges.

This complete lock-up can be scaled proportionally for other A-sizes.

Do not increase the size of the full legal name beyond this size.

First Name
Arno Pro Semibold, 13 point on 17 point line-spacing, with kerning set at optical +6.

Second Name
Arno Pro Regular, 13 point on 17 point line-spacing, with kerning set at optical +6.
Our research institute brand marks

Construction and lock-up
The standard relationship between research institute brand marks and the NUI Galway brand mark is shown below. Many institute brand marks are derived from the proportions of the NUI Galway master brand mark. The two brand marks must always appear at the same size.

Clearance zone
To ensure that nothing interferes with the brand marks’ visibility, a protective clearance zone sets them off from any type, photographs and illustrations. The rectangle shown below represents the minimum clearance zone for all of the research institute brand marks.

Reproduction quality
In order to preserve the quality of all research institute brand marks, they must always be reproduced from the correct digital master artwork files.

Duplicating the research institute brand marks by any other means will lead to an unacceptable deterioration in artwork quality.

Research institute brand guidelines
Brand guidelines for individual research institutes are available from the Marketing and Communications Office.

Research institute brand marks share vertical proportions with the NUI Galway brand mark.

Research institute brand marks include an integral white keyline that must never be removed.
Preferred relationship between research institute & NUI Galway brand marks on A4 publication covers

The preferred position for the research institute brand mark is the top right corner. On an A4-sized layout the brand mark is 17mm high, inset 17mm from the top and left edges. The university brand mark is then inset 17mm from the top and the right edges.

When the branding can only be accommodated at the base of an A4 layout, both brand marks should be positioned 17mm up from the base edge.

Do not increase the size of either of the brand marks beyond the agreed size of 17mm high on A4-size.

Whenever required, these complete lock-ups can also then be scaled proportionally for all other A-sizes.

In the majority of printed applications, the research institute brand marks take the primary position on the left side and the university brand mark takes the endorsement position on the right side.
Example branding relationship on A4 publication covers
Relationship between research institute & NUI Galway brand marks on title slides of presentations

These examples show how the brand marks can appear together on the title slides of PowerPoint presentations. When other brand marks are included it is preferable to keep our two brand marks adjacent to each other.
Relationship between research institute & NUI Galway brand marks online

These examples show how the brand marks can appear together on research institute websites.

This example is intended as a visual guide only, and not as a template for design.
Our master grid for both A4 and 1/3 A4 sized documents allows us to achieve a level of coordination across many publications while retaining the flexibility to tailor each to its specific marketing brief.

The main aim of these layouts is to ensure that NUI Galway promotional literature is easy to read and accessible to the reader.

We recommend:
- clear separation of text and images
- using strong images to maximum effect,
- using blocks of colour to break up the text and highlight important points.

A4 and 1/3 A4 size (A4 folded into three) are preferred over A5 size when producing brochures and leaflets. A5 may be used for particular specialist items such as invitations.

Our six-column grid for A4 documents allows for maximum flexibility when preparing layouts.

It can easily be modified from one, two, three or four columns of text within the main frame to accommodate content.

The blue lines indicate the columns while the pink lines indicate where main headings can be positioned.

Margins
- Top: 14mm
- Base: 14mm
- Inner: 14mm
- Outer: 14mm
- Column gutter: 5mm

A Body Text
The preferred type size is 10pt on 14pt leading Arno Pro Regular.

B Text Heading
The preferred type size is 10pt on 14pt leading Arno Pro Bold Subhead.

C Level 2 heading
The preferred type size is 10pt on 14pt leading Arno Pro Italic Caption.

Headings, introductions, running heads, captions and other styles are not specified and can vary depending on specific applications.
Example three-column layout on the A4 grid

Large heading for a spread which is over three lines of text

B.Sc. in

Physics with

Medical Physics

The School of Physics at NUI Galway offers its B.Sc. Degree in Physics with Medical Physics in conjunction with the Medical Physics and Bioengineering Department at Galway University Hospitals. The programme combines essential core physics modules with medical physics, chemistry, mathematical sciences, biology and anatomy.

Course features and facilities

Almost every clinical discipline present in a modern hospital.

Advanced, medical physicists are increasingly involved in medicine and radiological safety. As medical technology advances, medical physicists are increasingly involved in patient care, clinical diagnostic procedures in modern hospitals.

The School of Physics at NUI Galway offers B.Sc. Degree in Physics with Medical Physics in conjunction with the Medical Physics and Bioengineering Department at Galway University Hospitals. The programme combines essential core physics modules with medical physics, chemistry, mathematical sciences, biology and anatomy.

Course features and facilities

Students are given the opportunity to learn about cutting-edge clinical technology and the fundamental principles behind the technologies used in telemedicine and cancer treatment. Physicians with Medical Physics students will work closely with staff from the Medical Physics and Bioengineering Department at Galway University Hospitals - many final year projects will be conducted in the hospital.

These sample 1/3 A4 pages demonstrate the flexibility of the three-column grid which can be adjusted to suit different editorial needs.
Pre-printed letterhead specifications

Typesetting specifications for Adobe InDesign artwork files

We have a centralised print management and fulfilment system for all of our pre-printed stationery requirements.

Printed stationery
All NUI Galway’s official printed stationery, including letterheads, continuation sheets, headed notepaper, compliment slips, business cards, and printed envelopes should be ordered from the University’s approved stationery print supplier.

Other print
All other high-quality print including brochures, booklets, leaflets, posters, etc should be ordered from one of the University’s three approved suppliers.

Our printers
Details of and contact information for our approved printers is available on the procurement section of www.nuigalway.ie.

Only our approved printers may be used.

Contact our Marketing and Communications Office for any further information or clarification you may require about our stationery.

Detailed design layouts for all of our primary stationery items follow on pages 39 to 49.

Standardised stationery layouts
Our stationery layouts have been created to accommodate all of the requirements of NUI Galway. However, like all other standardised layout systems, exceptional situations may sometimes arise where necessary content will not fit within the defined structure. In such situations any one-off adjustments to the layout must be seen and approved by our Marketing and Communications Office.

Letterhead size
210mm wide by 297mm high.

Process colours
All letterheads print from four-colour process colours.

All text prints in NUI Galway Mulberry.

01 Unit Name LH

PARAGRAPH STYLE SHEET

Arno Pro Semibold,
9.25 point on 12 point line-spacing,
with kerning set at optical +3.

02 Address LH

OpenType All Small Capitals,
8.5 point on 10.25 point line-spacing,
with kerning set at optical +15.

Naming system for stationery
All of our stationery follows a standard layout. The relationship between the NUI Galway master brand and the names of all the various schools, institutes and centres is specified

• Schools have their own letterheads and compliments slips.
• Disciplines within Schools have their own letterheads and compliment slips which also reflect the School they reside in.
• Research Institutes and Centres have their own letterheads and compliments slips.
• Offices, University Management, Administration and Services units have their own letterheads and compliments slips, e.g. President’s Office, Human Resources, etc.
• St Angela’s College has its own letterhead and compliments slips.
• Shannon College of Hotel Management has its own letterhead and compliments slips.

Please note the following:

• Individuals no longer have personalised letterheads or compliments slips.

Typesetting
Telephone numbers must always be set in non-aligning numerals, do not use the aligning numerals suite.

Telephone numbers must always include the international prefix +353.

Contact details should always be in the following sequence and use these prefixes:

Telephone: T
Direct telephone: D
Mobile: M
Email: (No prefix)

The address text box is set to base-alignment, as the last line of the address must always appear 6mm above the base edge of the letterhead.

NUI Galway Brand Book 43
Email signatures

To provide simplicity and consistency across our email communications we have defined a standard format for email signatures for the university itself and for research institutes. The font used in the email signature is Arial. Note that Arial may be used only in email. Arial may not be used in any other circumstance.

Example of research institute email signature (not to scale)

<table>
<thead>
<tr>
<th>Brid Seoige</th>

</tr>
</tbody>
</table>

Top 2% of Global Universities | Top 250 Times Higher Education (THE) World University Rankings 2016/2017
5 Star QS Rating | Top 250 QS World University Rankings 2016/2017

University email signatures

All our university email signatures are constructed as follows:

Line 1: Person’s name only set in 9pt Arial Bold, 6pt leaded with hard return.

Line 2: Person’s title in English and Irish set in 9pt Arial Regular, 6pt leaded with soft return.

Line 3: Unit name in English and Irish set in 9pt Arial Regular, 6pt leaded with hard return.

Line 4: University name in English and Irish set in 9pt Arial Bold, 6pt leaded with hard return.

Line 5: Telephone number(s) and LinkedIn address (if appropriate) set in 9pt Arial Regular, 6pt leaded with a double hard return.

Line 6 and following: Approved University message(s) set in 9pt Arial Regular with key data highlighted in bold, no additional leading and soft return between each message component.

Research institute email signatures

All our research institute email signatures are constructed as follows:

Line 1: Person’s name only set in 9pt Arial Bold, 6pt leaded with hard return.

Line 2: Person’s title in English and Irish set in 9pt Arial Regular, 6pt leaded with soft return.

Line 3: Unit name in English and Irish set in 9pt Arial Bold, 6pt leaded with hard return.

Line 4: University name in English and Irish set in 9pt Arial Bold, 6pt leaded with soft return.

Line 5: Telephone number(s) and LinkedIn address (if appropriate) set in 9pt Arial Regular, 6pt leaded with a double hard return.

Line 6 and following: Approved University message(s) set in 9pt Arial Regular with key data highlighted in bold, no additional leading and soft return between each message component.

Note:

1. The order of English and Irish in lines 2, 3 and 4 is by personal choice.
2. The information in line 5 is by personal choice but should not exceed two telephone numbers and one other piece of information, such as a LinkedIn address.
3. A vertical bar or pipe should be used as the break between pieces of information in any line, e.g. between English and Irish text or between telephone numbers.
4. Only messages approved by the Marketing and Communications Office may be included in Line 6 and following.
5. Only one such message may be inserted at a time.
Copywriting guidelines for promotional literature

In communicating our brand the way in which we address our target audiences and the language tone-of-voice we use is as important as our visual identity.

Our Values (see page 3) are the foundation of our identity as a university. The ideas driving those values should always be reflected in our messaging, whether in promotional literature, digital media or spoken communications.

These guidelines are intended to help you to develop promotional text targeted at external audiences.

Generic text about the University is available from the Marketing and Communications Office. You can incorporate this into your own material.

Additional resources
For those seeking additional information or help with writing style two excellent and freely available resources are:
- The Guardian and Observer Style Guide www.theguardian.com/guardian-observer-style-guide-a
- The Economist Style Guide www.economist.com/styleguide/

For further information contact the Marketing and Communications office

Tone of voice
Your tone of voice should change according to two elements: the audience that you are addressing and the purpose of your document.

For recruitment literature your tone should be informal, but not casual. Your language should be intelligent, but not arrogant. For example:

Choosing the right university and degree course is one of the most important decisions you will ever make. Your teachers, parents and friends can all offer you advice and support, but ultimately the decision is yours. You need to choose the university that feels right for you.

Jargon
The use of jargon or specialist language is only appropriate if you are confident that your reader will easily understand it. Be cautious of using phrases that might be very familiar to you (such as ‘undergraduate’, ‘semester’ and ‘modules’) in promotional literature for undergraduate programmes. Question whether your reader will understand these terms.

— undergraduate?
— semester?
— modules?

Clear and direct
In all communications, your text should be clear, concise and confident.

Sentence lengths
Long sentences are difficult to understand in printed documents and more so on web pages. Too many clauses or sub-clauses obscure the meaning of a sentence.

If your sentence structure is limited to two, or occasionally three, clauses your readers will move through your text more swiftly. They will also retain more information.

Your average sentence length should be between 15 and 20 words. For variety you may include sentences that are longer and shorter than this, but this is a good average.

When writing for younger audiences avoid including long passages of text with several paragraphs. Find ways of breaking your text up by using design devices such as blocks of colour highlighting important points, bullet points, representing information pictorially through charts, diagrams and images, etc.
Copywriting guidelines for promotional literature continued

Adjectives and hyperbole
On its own, this sentence does not contain any meaningful information and leaves your reader with more questions than answers. If you make claims to greatness then you must be able to support them. The overuse of adjectives and hyperbole reduces the credibility of your text.

This world leading university offers excellent teaching and cutting-edge research set in a beautiful campus.

Remove unnecessary words
Text can become cluttered with unnecessary words that add no information. Your reader wants to find the meaning within your text quickly. Therefore, words that do not increase the understanding or meaning should be deleted. For example, there is no significant difference in meaning between these two sentences.

Sport contributes to academic life and this is very much the case at NUI Galway.

Sport is central to life at NUI Galway.

Use confident Language
Overuse of words like ‘more’, ‘most’, ‘very’ and ‘very much’ to create emphasis reduces the confidence of the tone of voice. Question whether you need them at all.

— more?
— most?
— very much?

Guard against stating the obvious
None of the information in this sentence on the right needs to appear within a promotional leaflet, as the purpose of such a leaflet is self-explanatory.
If the words add nothing new, delete them.

This leaflet has been designed to provide you with information about programmes of study in the School of...

Accurate use of language
Beware of words and word combinations that have become clichés through overuse. For example ‘world class’, ‘research-led’, ‘innovative’, ‘dynamic’, ‘unique’ and ‘state-of-the-art’.
Whenever you are tempted to use a stock phrase, question what it means. Consider re-working your text, either to explain your idea more clearly, or use more interesting language.

— world class?
— research-led?
— innovative?
— dynamic?
— state-of-the-art?
Copywriting guidelines for promotional literature continued

Provide evidence of claims
Whenever you make claims to promote the University, you need to provide evidence that will validate your claim.

This should be supported by then providing examples of our forward-thinking, global research like this.

Substantiated claims are more interesting and trusted than empty claims to greatness.

Research at NUI Galway is forward-thinking and global in scale.

Our Environmental Change Institute is conducting one of the world’s largest studies into how marine plants may affect the earth’s climate by decreasing climate change. NUI Galway is also home to the world’s largest research institute devoted to developing the next generation of internet technology.

Structure
Following a three-step structure when writing promotional literature can be useful.

Firstly, begin your text with something interesting that encourages your reader to think more about the subject matter and to engage with your document. Like the example shown here.

Secondly, substantiate and then expand on this engaging opening in the information that follows.

Finally, close with a call to action. This is a final paragraph that lets the reader know how they can continue the conversation. Who do they call, where can they get more information, is there something more specific you would like them to do?

Additional points
The terms ‘you’ and ‘we’ are the preferred form for addressing our readers. They can be used wherever appropriate to the purpose of, and readership of, your publication. They create a welcoming and engaging tone of voice without becoming patronising. There will be certain highly formal publications where this usage is inappropriate, but these are likely to be in the minority.

Always read your text aloud. This enables you to identify places in the text where your language does not flow smoothly. Asking someone else to read your text also helps, as their perspective can clarify potential areas of confusion.

Some people see daydreaming as an idle waste of time and students are often discouraged from dreaming.

At NUI Galway, we take a more enlightened view.

We believe that dreaming is at the very heart of innovation and invention.
Grammar, Spelling and Punctuation

This in-house Grammar and Punctuation Style Guide is intended primarily for the use of the Marketing and Communications Office staff, and those working with the office on promotional material, news releases, websites and other written documents.

We do not intend this to be an exhaustive compendium of grammar and punctuation, more of a quick guide to common examples.

In everything we write we try to use language that is as clear, simple, and accessible as possible.

The *Times New Roman* typeface family is the preferred typeface for use on all communications produced in-house.

*Times New Roman* is not used in any of our marketing material, such as brochures and advertising, nor branded material, such as signage or merchandise.

Specific style guides are also available from the Marketing and Communications Office on:

- Copywriting for Promotional Material
- Writing a Press Release

**Official title**
The University’s official title is:

National University of Ireland Galway, or Ollscoil na hÉireann Gaillimh.

The only official abbreviation is:

NUI Galway or OÉ Gaillimh.

**Contact details**
Telephone numbers and email addresses should not appear on pre-printed letterheads but may be included in the signature content.

Telephone numbers must always include the international prefix +353.

Contact details should always be in the following sequence and use these prefixes:

- Telephone: T
- Direct telephone: D
- Mobile: M
- Email (no prefix)
- Web address (no prefix)

**Personal Names, Titles and Qualifications**

**Professor** not Prof (or even Prof.)

**Dr** not Dr. or Doctor

Avoid Ms and Mr where possible except in running text, where we spell out the name first time round and contraction thereafter:

John Smith (first mention), Mr Smith (thereafter)

For official use we refer to the President as Dr James J. Browne

To simplify our style, we use

- PhD not Ph.D.
- MA not M.A.
- BA not B.A.

**Spelling**
Follow standard British usage, key words to watch out for include...

**Programme** not program

**Organisation, analyse** not organization or analyze

**Toward, while** not towards or whilst

Others to watch include...

- practice (noun) / practise (verb)
- licence (noun) / license (verb)

Use first year and second year except when adjectival:

*This is the first year that first-year students will have no exams.*

**Stops**
Stops (. ? ! ; :) are always followed by only a single (not a double) space before the next sentence or part of sentence.

**And**
and is used, rather than &

**Quotation marks**
Quotation marks are preferably smart (‘…’), rather than straight (‘…’).

Use double quotation marks to signal direct speech and verbatim quotes, closing quotation marks after the full stop.

*Obama said “This is a great day for Ireland.”*

If the quotation itself contains a concluding mark, such as an exclamation mark, “no full stop is required after!”

Use single quotation marks to identify words and phrases that are not themselves quotes but to which you wish to draw attention as ‘lexical items’.

The *Times New Roman* typeface family is the preferred typeface for use on all communications produced in-house.

*Times New Roman* is not used in any of our marketing material, such as brochures and advertising, nor branded material, such as signage or merchandise.

and is used, rather than &

**Quotation marks**
Quotation marks are preferably smart (‘…’), rather than straight (‘…’).

Use double quotation marks to signal direct speech and verbatim quotes, closing quotation marks after the full stop.

*Obama said “This is a great day for Ireland.”*

If the quotation itself contains a concluding mark, such as an exclamation mark, “no full stop is required after!”

Use single quotation marks to identify words and phrases that are not themselves quotes but to which you wish to draw attention as ‘lexical items’.
Colons and semi-colons
Colons (:) are most often used to indicate a list of items in running text. The part before the colon must be a full sentence in its own right but the second need not be.

Use a semicolon (;) rather than a comma to combine two sentences into one without a linking conjunction.

The committee dealing with the question of commas agreed on a final text; however, the issue of semicolons was not considered.

Hyphens
Compounds may be written as two or more separate words, with hyphen (s), or as a single word.

Postgraduate and undergraduate do not use hyphens.

Use hyphens sparingly but to good purpose...

user-friendly software
two-day meeting
well-known problem
above-mentioned report
policy for the long term, but long-term effects
measures for flood control, but flood-control measures

Abbreviations
The prime consideration when using abbreviations should be to help the reader. First, then, they should be easily understood.

So when an abbreviation that may not be familiar to readers first occurs, it is best to write out the full term followed by the abbreviation in brackets.

The Global Science Project (GSP) should enable the Committee of Scientific Representatives (CSR) to broaden its membership. In recent discussions, a programme of initiatives was agreed between GSP and CSR.

Times, Dates and Years
Write out the month, preceded by a simple figure for the day, separated by a hard space comma and then all four digits referring to the year.

16 January, 2016 not 26th Jan '16

When referring to decades write the 1990s (no apostrophe).

The letters AD come before the year number (AD2000), whereas BC follows it (347 BC).

Numbers, weights and measurements
As a general rule write low numbers (zero to nine inclusive) in words and larger numbers (10 and above) in figures.

Note that you should always use figures for statistics and votes:

3 new officials were appointed in 2002, 6 in 2003 and ...
12 delegations were in favour, 7 against, and 6 abstained

Always spell out units of measurement, avoiding symbols where possible.
PowerPoint presentations

We have two sorts of PowerPoint templates available in three colour schemes.

The first sort is more formal and is intended for use in lectures and other internal applications. This uses a minimalist layout with a strip of colour running along the base of each slide. This colour strip includes the NUI Galway brand mark and the relevant unit name.

Three colour variations are available for use as shown here: blue, green and slate. This design is deliberately understated to draw attention to the content of the presentation.

Section two: Applications

Title of presentation line 1
Title of presentation line 2

Text-only title slide in green colour scheme.

Title of presentation on first line
Description or sub heading on line 2

Image title slide in blue colour scheme. Template is editable to place in appropriate image.
The second template allows for an image to be incorporated into the title slide. Again this is available in three colour variations. The inner page of both sorts of template are the same.

A guideline presentation file is available from our Marketing and Communications Office and on the website showing how to use these templates most effectively.

Section two: Applications

Example brand mark application to website

Contact Marketing and Communications Office for information or guidance concerning our website.
If you have any further queries about the NUI Galway brand and its implementation, or if you require any brand resources please contact Bride Seoige, Brand Officer, at our Marketing & Communications Office: brid.seoige@nuigalway.ie / 091 494 144

The University’s approved panel of graphic designers and printers are fully briefed on the NUI Galway brand mark and its guidelines and will be able to answer any design or print queries you may have.

Please send proofs of all artwork that carries the NUI Galway brand mark to the Marketing and Communications office before printing to ensure that they are compliant with our brand guidelines.

The brand mark is available to download at:
http://www.nuigalway.ie
