

NUI GALWAY LAPTOP LOAN SCHEME

LOAN TERMS

- The laptop assigned to you is the property of NUI Galway and is being provided to you on a loan basis only
- You may keep the laptop assigned to you year-to-year as you progress through your studies at NUI Galway (i.e. for so long as you remain registered with the University)
- When you reach the end of your studies at NUI Galway you will be required to return the laptop to the University
- You will be expected to return the laptop to NUI Galway in good condition and good working order
- Laptops are assigned to the named student only and should not be passed onto or used by a third party

HARDWARE WARRANTY

- Each laptop has a five-year hardware warranty with Dell. The date of expiry of this warranty is noted on the label on the back of the laptop.
- In the event of a hardware issue during the lifetime of the warranty period, contact Dell at <http://www.dell.com/support> or phone 1850 964 270
- The laptop assigned to you is identifiable by the Service Tag printed on the label on the rear of the laptop. You will need to specify the Service Tag for your laptop in any interaction with Dell
- If Dell need to have a technician work on your laptop due to a hardware issue, they will send the technician to your location – you do not need to return the laptop to the University or to Dell
- The Dell hardware warranty does not cover accidental damage or loss or theft. You are responsible to ensure that the laptop is not exposed to unnecessary risk of damage or loss due to carelessness

Install McAfee Anti-Virus software on the laptop

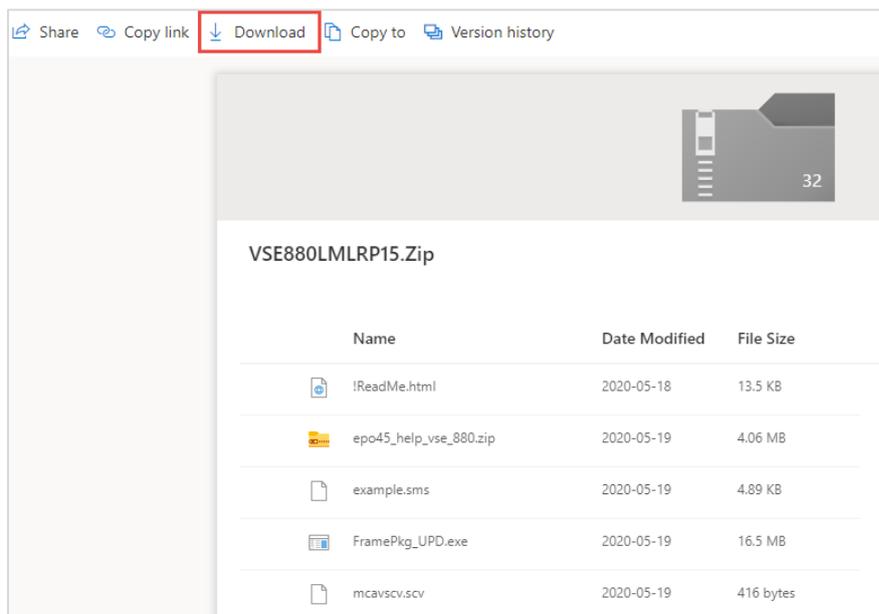

Please visit this link: <https://www.nuigalway.ie/itsecurity/anti-virus>

Click on **Anti-Virus for Windows**

Expand Step 2: **Install McAfee Virus Scan Enterprise**

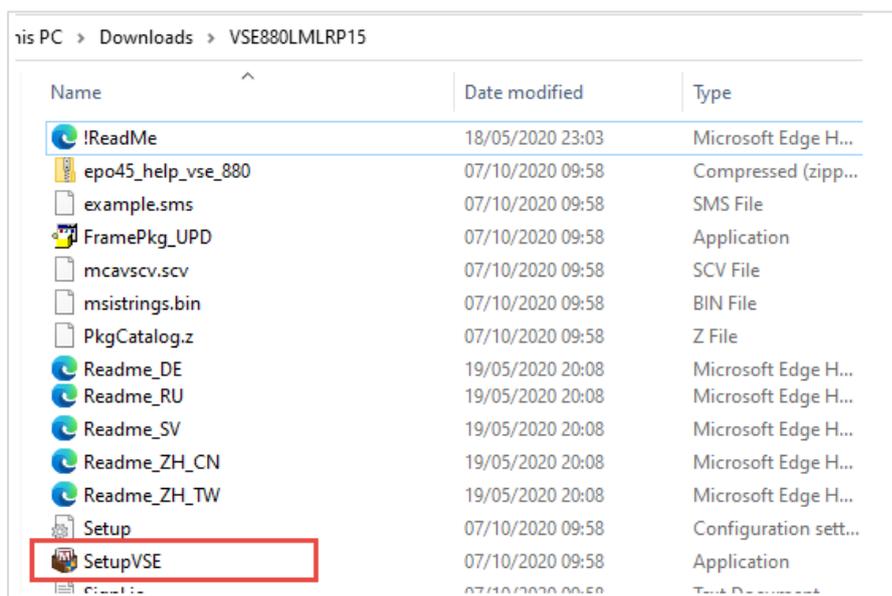

Click on link **Download McAfee Installation File**

You will be asked to log in with your NUI Galway credentials (NUIG email and campus account password)
This will then bring you to the below screen, click on **Download** (as highlighted in this picture).

This will download a zip file to your Downloads folder. On completion of the download click **Open File** this will open a window with the files, Click **Extract** (at the top of the window) and then **Extract All**.

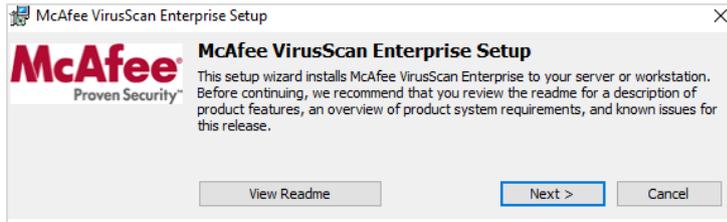

A new window will open, scroll down to **SetupVSE** (as highlighted below) and double click on this file.

Click **Yes** to allow McAfee to install itself to the laptop.

(Continued over)

A window with McAfee Enterprise setup will open Click **Next**

Select **Perpetual** licence from the drop down and **Accept** the McAfee's licence agreement and Click **OK**

Input the following settings:

Setup Type:

Typical

Click **Next**

Access Protection Level:

Standard Protection

Click **Next**

Click **Install** to begin installation and **Finish** when complete. McAfee may update, accept any necessary Updates.

McAfee will require a restart of the device, if prompted Click **OK**, your WiFi may be disabled until this is done. If McAfee does not prompt the laptop to restart you should restart the device.
