BA Children’s Studies

The BA (Children's Studies) is an interdisciplinary degree designed to equip students with a theoretical and practical understanding of the lives of children and youth today. This four-year degree draws on expertise from a wide range of areas including the creative arts, literature, law, health, human rights, history, sociology and psychology, and incorporates the optional study of one modern language. Community-based service-learning and enquiry-based learning are embedded across the degree and the third year placement combines valuable practical experience with specific career-orientated goals.

The learning outcomes of this programme include a theoretical and practical understanding of the issues relevant to the study of children and children’s lives; competence in writing and communication skills; knowledge of social and community settings that have relevance to children’s lives; and research skills relevant to the study of children.

Year 1: Introduction to Children’s Studies: Core Concepts

The first year focuses on providing the foundations of Children’s Studies and builds core study skills by introducing students to essay writing, information literacy, basic research skills, service learning, and guided enquiry-based learning.
In Year 1, students will acquire:
- Study and research skills across the various disciplines (Social Sciences, Law, Humanities);
- Theoretical frameworks for the study of childhood and adolescence in Sociology, History, Psychology, Literature and Culture, and Health.

Year 2: Children in the Irish Context

The second year focuses on the position of children and young adults in Ireland from historical, cultural, legal and societal aspects. It builds on the study skills acquired in first year, and introduces the students to the skills required to carry out research.
In Year 2, students will acquire:
- Understanding of the position of the child in Irish history, literature and culture and an overview of the Irish legal, educational, and policy situation;
- Understanding of the health and well-being status of children in Ireland;
- Basic research skills and participative research methods.

Year 2 results count for 30% towards your overall Degree.
Year 3: Children from a Global Perspective

The third year focuses on developing comparative views of children and young people across nations. It provides an opportunity for students to have real-life work experiences in the national and international community and it includes an optional international exchange. In year 3, students will:

- Develop global perspectives on children and childhood through class-based modules and work placement;
- Explores contemporary issues and debates around the status of children and young adults in society and culture from an interdisciplinary perspective.
- Learn about the ethics and methodology of child-centred research.
- Choose between student exchange, national or international work placements.

Year 3 is a Pass/Fail year, with results not counting toward the overall degree mark.

Year 4: Current Issues in Childhood and Adolescence

The fourth year focuses on current issues in the lives of children and adolescents, focussing on cutting-edge topics and phenomena and building on the knowledge gained in the previous three years. This year builds on existing study skills, expands the student’s existing theoretical framework, enables students to specialise and guides them through an extended research project. In year 4, students will:

- Develop an independent project;
- Gain understanding on various cutting-edge issues in children’s lives including:
  - Disabilities,
  - Children’s rights,
  - Children and the media
- Explore future careers and professional development.

Year 4 results count for 70% towards your overall Degree
Studying Children’s Studies with a Modern European Language

BA (Children’s Studies) students may study a modern European language (French, German, Italian, Spanish, or Irish) alongside Children’s Studies.

- There is a minimum requirement to study French (C1 or higher in Honours French) or Irish (C3 or higher in Honours Irish). Spanish, Italian, and German may be studied at beginner level. German may also be studied at advanced level.
- BA (Children’s Studies) students are required to undertake a 12-week work placement in the 3rd year of their degree. Students studying modern languages will complete this placement in a country where the relevant language is spoken in order to fulfil the requirements for a BA (International) degree.

Students are encouraged to try out the various language modules in Orientation Week to help them decide which language to study.
Online Learning Guidelines for 2020/21

Due to the current public health situation, and following Department of Health and University Guidelines, a significant portion on learning will take place through online platforms this year, in semester one and potentially in semester two as well.

In light of this temporary change, it is of the utmost importance that all students are made aware of and adhere to online learning guidelines, or "proper netiquette" for online learning.

All instructors will go over guidelines individually, but these general guidelines apply to all online learning platforms you may be asked to interact with your lecturers and/or classmates on. The most commonly used platform will be Blackboard Collaborate, but you may also be asked to interact and engage on Zoom, Teams, or other platforms at the lecturer’s discretion.

When you join an online classroom/ group session...check that:

1. Camera Working? Audio Working? – you are expected to have your camera on at all times possible, and will require audio during most sessions
2. Now mute your audio (until you want to speak) – this reduces background noise
3. Now go to ‘settings’ and mute audio notifications - so they do not disturb you every time a classmate virtually raises their hand or posts a chat message
4. BE ON TIME! – students entering and exiting a session throughout is very distracting to other students, no different than it is in a real classroom
5. COME PREPARED! – ensure that you have watched all required weekly content and that you have done the required readings before class
6. RAISE YOUR HAND TO SPEAK – on Blackboard Collaborate, Teams, and Zoom, there is a hand raising function that you should use to ask questions. Wait until you are called upon. (This does not apply in small group settings most of the time...jump in and engage in small groups)
7. BEFORE YOU TALK OR WRITE – T.H.I.N.K. –
   a. Is it True?
   b. Is it Helpful?
   c. Is it Inspiring?
   d. Is it Necessary?
   e. Is it Kind?
8. Participate, Collaborate, and Engage...the success of our online learning communities depends on you, and your classmates, engaging with the subject matter and each other. This year more than any other, you will get out of your education what you put in.

**Module Coordinator:** Dr Michal Molcho

**Module Description**

This module provides students with a solid grounding in the social and cultural discourses at the heart of the interdisciplinary field of Children’s Studies. It examines the social, legal, economic and cultural contexts that frame the lives of children and adolescents today and it situates contemporary constructions of childhood and adulthood within a broad international framework.

**Learning Outcomes**

Upon completion of this module students should be able to:

- Critically examine the figure of the child as constructed within a variety of discourses particular to the 20th and 21st Centuries.
- Describe the social, legal, and cultural factors that have influenced constructions of childhood and adulthood over time and across the world.
- Discern the voice of the child within society and culture, and position this voice within the broader social and cultural framework.
- Compare and contrast contemporary perspectives on childhood and respond critically to these both verbally and in writing.
- Identify the academic disciplines on which the interdisciplinary field of children’s studies draws and describe how these disciplines relate to each other within the wider picture.
- Develop digital literacy skills and critical writing skills via online independent learning and directed study.

**Assessment**

- Library Skills (20%)
- Critical Responses to Seminars and Films (10%)
- Critical Essays (70%)
Module Coordinator: Dr Kate Harvey

Module description

This module is designed to provide students with a practical introduction to creative engagement with children. Taught through a combination of lectures and hands-on creative exploration, this course acknowledges the primacy of creativity in the lives of young people and offers students a series of tools designed to optimise their facilitation of children’s creative expression.

Students are encouraged to consider questions such as how creative activity enhances the life of a child, how creativity may be better incorporated into the education system and how practitioners working with children can best nurture a child’s innate creative abilities. Students will have the opportunity to participate in workshops on campus led by expert practitioners who both demonstrate and explain the techniques used by them to foster children’s creative potential.

Learning outcomes

Upon completion of this course students should be able to:

- Critically assess creative activities for children and determine the context in which such activities are best applied
- Critically discuss the value of a particular piece of art or performance in terms of its potential to foster children’s creative engagement
- Design and plan creative workshops for children drawing on the theories and practices discussed in class
- Identify and distinguish various types of intelligences and discuss how these impact upon children’s creative expression
- Apply the skills learned to other areas of children’s studies

Assessment

- Portfolio (45%)
- Project (40%)
- Learning group engagement (15%)
Module Coordinator: Dr Coralline Dupuy

Module Description

This module examines the history and development of the Fairytale in Europe from the 16th century to the present day. The course begins with an overview of the most well-known fairytale collections by Giovanni Straparola, Giambattista Basile, Charles Perrault and the Brothers Grimm, before exploring modern retellings in children’s picturebooks, young adult literature and children’s film. The module is grounded in contemporary psychological and socio-historical fairy-tale theory and encourages students to reflect on the form, purpose and content of classic fairytales over time.

Learning Outcomes

Upon completion of this module students will be able to:

- Demonstrate an understanding of the historical development of European fairytales and of the way in which they gradually came to be associated with a child audience.
- Approach the study of fairytales and fairy-tale films from both a psychological and a socio-historical perspective.
- Critically reflect on the changing moral and didactic function of fairytales over time.
- Describe the key structural and thematic features of fairytales.
- Compare different versions of well-known tales and reflect on their significance in childhood culture and society.

Assessment

- Presentation (15%)
- Critical Review (15%)
- Essay (70%)

**Module Coordinator:** Dr Caroline Heary

**Module Description**

The aim of the module is to introduce the student to key concepts and theories in child development and to explore the application of developmental science research to contemporary issues in society. Students will be introduced to processes of growth, change and continuity in the individual across the period of childhood and adolescence, with a particular focus on cognitive and psychosocial development. The implications of psychological knowledge for society will also be considered.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Understand major concepts in developmental psychology and theoretical approaches to the study of child development.
- Describe key changes and processes relevant to children’s development (e.g. cognitive, language and social development).
- Explain developmental approaches and models used to understand and theorise about human development across infancy, childhood and adolescence.
- Critically examine the contribution of theory and research to our understanding of contemporary issues in children’s lives.
- Identify the practical applications of developmental research and theory to real world settings.

**Assessment**

- Essay (60%)
- Applied Assignment (40%)
Module Coordinator: Dr Lindsay Sullivan

Module Description

This module aims to provide students with an understanding of children's lives within their social contexts. The contexts that are examined in this module include the family, pre-school settings, schools and peer relationships. The module will also examine research with children and ethical concerns relevant to working with children.

Learning Outcomes

Upon completion of this module students will be able to:

- Understand the different contexts in which children operate;
- Understand the importance of the different contexts and the role they play in child development;
- Apply theories to the service learning experience.

Assessment

As part of this module, students are required to complete 10 hours of service learning in the community, working with children. To fully incorporate the service learning in the class work, students are required to submit learning journals and reflective sessions will be used to discuss the service learning and how it links to the theories discussed in class.

- Children First Training (10%)
- Article Critique/Reflection (10%)
- Weekly Reflection Journals (30%)
- Final Essay (50%)

**Module Coordinator:** Dr Michal Molcho

**Module Description**

The module provides students with an understanding of children's health, health behaviours, and theories about health. The module reviews existing national and international policies and programmes addressing children's health and children's access and interaction with the health services. The module takes an interdisciplinary approach to children's health and is informed by the World Health Organisation’s definition of health (WHO, 1984), as well as Dahlgren and Whitehead's (1991) Social Model of Health.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Demonstrate an understanding of various definitions of health.
- Discuss the Social Model of Health and how it is used as a framework for the understanding of health and health inequalities.
- Describe the various aspects of children’s health.

**Assessment**

This module is assessed by an essay.

**Module Coordinator:** Dr Kate Harvey

**Module Description**

This module explores the importance of literature in children’s lives. Students will examine and discuss books and other cultural products aimed at children in Ireland through a range of media, including novels, picturebooks, comics, film, television, and digital media. Students will explore representations of children and childhood in Irish culture, with a particular emphasis on gender, class, age, and religion. Other topics covered include uses of Irish myth and folklore in modern children’s fiction; national identity; Irish history in children’s fiction; visual narrative; the place of the Irish language; and contemporary children’s publishing and broadcasting. This module also provides students with a foundation in academic research and writing skills.

**Learning Outcomes**

Upon completion of this module students should be able to:

- Engage critically with the key concepts of children’s literary and cultural studies.
- Demonstrate an understanding of the evolving role of literature, film, and digital media within children’s culture in Ireland.
- Critically discuss the impact of children’s literature and culture on its target audience.
- Develop critical writing and research skills relevant to the study of Arts and Humanities at third level.
- Apply the skills learned to other areas of children’s studies.

**Assessment**

- Learning Journal (40%)
- Group learning engagement (10%)
- Essay (50%)
Module Coordinator: Dr Sarah-Anne Buckley and Dr Kevin O’Sullivan

Module description:

This module is in two parts:

Section A: Ireland, 1789-1918, Dr Sarah-Anne Buckley

Nineteenth century Ireland was a period of intense change and transformation for large sections of Irish society. Bookended by revolutionary events, this module will examine the social, economic and political developments in Ireland from 1789 to 1918. Intensifying administration (schools, police, hospitals), growing institutionalisation, changing roles for women, emigration, family change, expanding class structures and modernising living standards are examined against a backdrop of major political developments including growing nationalism, land agitation and unionism. Situating Ireland within a global context, these events and experiences will be addressed using a wide array of sources and tools to demonstrate the importance of ‘the long nineteenth century’.

Section B: Europe, 1789-1918, Dr Kevin O’Sullivan

Europe was transformed in period from the French Revolution to the First World War. This section of the module explores those changes, and their impact on the individuals and communities who lived through them. It begins by examining the revolutionary ideas of the late eighteenth century and their influence on Europe, before analysing how industrialisation, cultural and social change, and the rise of new political ideas changed the continent in the century that followed. This section of the module ends by situating Europe within a global context, from the expansion of its empires to the experience of global war.

Learning Outcomes:

Upon completion of this module students will be able to:

**Module Coordinator:** School of Political Science and Sociology

**Module Description**

These modules aim (1) to introduce students to the concepts and theories used in the study of contemporary politics and society (e.g. society, state, modernity, power, identity, freedom, equality, government, democracy, capitalism, environmentalism, globalization); (2) To present key areas in political science and sociology. Students are introduced to core ideas and arguments and learn how to analyse political and social phenomena from disciplinary perspectives. (3) To provide the opportunity to develop academic skills: i.e. reading texts critically, taking effective notes, gathering information and using the library, using the internet as a research tool, completing assignments and working in groups, giving presentations, preparing and writing essays, using academic language, revising for and taking exams, preparing for future subject and career choices.

SP158 Introduction to Politics and Sociology and SP159 Concepts and Practices in Politics and Sociology are taught by lectures. SP160 Problems in Politics and Sociology is taught by small-group seminars. Information on seminar groups will be available on Blackboard and on the School of Political Science and Sociology noticeboard.

**Learning Outcomes**

Upon completion of these modules students should be able to:

- Demonstrate knowledge of the key assumptions, ideas, concepts, values, and practices of politics and sociology and to apply political and sociological knowledge to the analysis of core debates on contemporary issues, controversies, and problems, locally and globally.
- Appreciate the complementary disciplines of political science and sociology as they critically engage with the formation and transformation of political and social ideas, actions, and institutions of state and society.
• Acquire academic skills such as critical reading and analysis, using different material sources as research tools, oral presentation, report writing, and competent use of academic language and concepts.

**Assessment**

SP158 Introduction to Politics and Sociology and SP159 Concepts and Practices in Politics and Sociology are assessed by an end-of-semester multiple-choice (MCQ) examination.

SP160 Problems in Politics and Sociology is assessed by continuous assessment as follows:

- Attendance/Participation (12%)
- Assignments (8%)
- Presentations (20%)
- Essays (60%)

**Module Coordinator:** TBC

**Module Description**

This module critically examines the figure of the child in twentieth-century, world cinema from a variety of perspectives. It explores the role and function of child characters in cinema, the difference between films for children and films for adults and the social, political and cultural ideologies on which contemporary portrayals of childhood and adulthood are constructed in film. Students will view and reflect critically on a number of international films with child protagonists (these will include films produced specifically for children, films aimed at a dual audience and films aimed at adults), and engage in theoretical reading to support their analysis of these works.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Reflect on the centrality of the figure of the child in modern world cinema.
- Gain an understanding of the many different ways in which child characters function in twentieth-century international films.
- Acquire a broad understanding of the history of the child in film.
- Develop the critical skills necessary to discuss films from a theoretical perspective.
- Examine the social, cultural and political ideologies that are associated with the adult/child binary in modern films for both children and adults.

**Assessment**

- Critical responses to films (25%)
- Annotated bibliography (25%)
- Essay (50%)

Notes

Students who are studying Children’s Studies with a modern language should register for 5 ECTS in Children’s Studies elective modules, plus 20 ECTS in their chosen language, as directed by the relevant language department.

- The module CSS1101 Irish Childhoods: Gaelic Language and Literature may clash with modules in German. Students studying German should check their German timetable before registering for this module.
- The module CN2105 Understanding Children’s Medicine may clash with modules in Irish, Italian, and/or Spanish. Students studying Irish, Italian, or Spanish should check their language timetable before registering for this module.

Students who are not studying a modern language with Children’s Studies should register for all four elective modules.

N.B. The following module descriptions contain indicative content only; while every effort is made to keep them up to date some details (e.g. learning materials or assessment methods) may vary from year to year at the discretion of the lecturer.

The mode of instruction of all modules is subject to change and will at all times follow university and government guidelines.
Module | Semester | Mode of Instruction | ECTS
---|---|---|---
CN2101 Research Methods: Quantitative Approaches | 1 | Blended | 5

**Module Coordinator:** Dr Devon Goodwin

**Module Description**

Using a positivist approach, this module takes the students through the research process, from formulating quantitative research questions, identifying the most appropriate approach to testing them, developing quantitative research tools, collecting and analysing data and critically interpreting the findings.

**Learning Outcomes**

Upon completion of this module students should be able to:

- Critique the quantitative research process and appreciate the strengths and weaknesses of different methodological approaches
- Identify the appropriate research methods for different quantitative research questions.
- Demonstrate an awareness of ethical consideration in research design.
- Review quantitative research papers.

**Assessment**

- Group Poster (50%)
- Peer Assessment (10%)
- Exam (40%)

</table>

**Module Coordinator:** Dr Devon Goodwin

**Module Description**

This module will introduce students to a range of pedagogical approaches that are relevant to the current European educational climate. The aim is a broadening of students’ ideas and knowledge about educational approaches, systems and policy. Students will be shown a diversity of approaches by highlighting European and international developments, putting an emphasis on creative pedagogical thinking. They will be required to demonstrate knowledge of these educational approaches, and to compare and contrast with other approaches and analyse how Ireland fits into this framework. There will also be an examination of the socio-cultural aims and requirements of education, focusing on pedagogy, but also addressing key areas of policy and practice as they relate to social justice.

**Learning Outcomes**

Upon successful completion of this module students will be able to:

- Have gained knowledge of a variety of educational approaches.
- Understand that there is a possibility of diversity of educational provision.
- Be able to critically discuss the influence of context and culture on education systems.
- Demonstrate awareness of both the strengths and the challenges of various pedagogical approaches.
- Be able to critically reflect on how their own education system was formed, where it is now and where it may go in the future.
- Be able to demonstrate an overall understanding of the importance of considering the goals of education in educational debates e.g., what is the purpose of education?

**Assessment**

- Continuous Assessment (40%)
- Final Essay (60%)

**Module Coordinator:** Dr Michal Molcho

**Module Description**

The module prepares students for negotiating a work placement and for performing well in their placement. The modules provide transferable skills and will serve the student in the work placement and beyond, in the labour market. The module is delivered in collaboration with Career Development Centre.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Perform well in interviews.
- Identify the right work placement that suits them.
- Communicate professionally within a work setting environment.
- Reflect on their practice and link it to theory.

**Assessment**

- Computer and office skills (40%)
- CV (10%)
- Cover letter (10%)

Module Coordinator: TBC

This course will be delivered by professional Galway storyteller, Rab Fulton, in collaboration with a member of the Children’s Studies staff.

Module Description

This is a workshop-based module in which students and Galway primary-school children work together to co-create and tell original stories. It is constructed in two sections, each lasting six weeks.

The first six weeks consist of six two-hour workshops on campus during which students will learn the skills needed for storytelling and for engaging in collaborative storytelling workshops with children, and six one-hour tutorials in which students will engage with contemporary research on storytelling in the classroom and home from a variety of multidisciplinary perspectives.

The second six weeks will take place in local primary schools (within 15-minute walking distance from the campus). The sessions will have a key facilitator overseeing them and will take the form of workshops during which the students will assist local primary-school children in co-creating original stories of their own.

Learning Outcomes

On successful completion of this module, students will be able to:

- Gain an understanding of different types of stories (fairytales/tall tales)
- Analyse the individual and societal benefits of storytelling
- Research new stories through talking and listening to others
- Support other story makers through positive critique and editing
- Create and perform stories
- Learn how to use journals as a creative, expressive and cognitive tool

Assessment

- Creative journal (5%)
- 2 short creative writing pieces (15%)
- In-class performance of an original story (15%)
- Tutorial participation (15%)
- Reflective journal (20%)
- Reflective essay (30%)

**Module Coordinator:** Dr Anne Egan

**Module Description**

The objective of this module is to examine the role of law in regulating the family in Ireland. The course focuses on the legal position of non-marital families, the rights of children and family issues concerning children, including adoption, child care, guardianship and child abduction.

**Learning Outcomes**

On successful completion of this module, students will be able to:

- Apply the law to each of the subject areas;
- Analyse the effectiveness of the law in each area;
- Make effective and substantiated legal arguments;
- Identify and analyse problems from a legal perspective;
- Use the primary source materials, including statutes and reported cases.

**Assessment**

- Multiple Choice Questions (15%)
- Essay (85%)
Module Coordinator: Dr Michal Molcho

Module Description
This module is an introduction to children’s medicine. The module consists of 12 hours of lectures delivered by clinicians specialised in a variety of childhood disabilities, with a focus on interdisciplinary working. This is complemented by 12 hours of tutorials identifying how these disabilities are catered for in the community. Students will explore the impact that childhood disabilities have on a child’s participation and performance in everyday life. Students will also explore how various players in children’s lives work in collaboration with the child, their family, and other relevant team members in the health and education systems to maximize the children’s potential.

Learning Outcomes
Upon completion of this module students will be able to:

- Identify the impact of common childhood disabilities on the child’s ability to engage in typical childhood activities
- Recognise the importance of play as a childhood activity
- Analyse the factors involved in determining what activities are meaningful to children.
- Appraise critically how daily activities can be used to positively influence a child’s health and well-being.

Assessment

- Multiple Choice Questions (40%)
- Developing a child friendly information pack (60%)
Module Coordinator: Michal Molcho

Module Description

This module explores the most vulnerable children in Irish society, looking particularly at children in care, carer children, homeless children, children living in poverty, ethnic minorities, and children asylum seekers. The module will involve service learning in services that cater for these population groups, and draws on literature and experience to develop an appreciation for the adversities faced by these children, as well as the services that exist, or are needed, to support these children.

Learning Outcomes

Upon completion of this module students will be able to:

- Appraise the challenges facing marginalised children
- Discern the voices of marginalised children in society
- Demonstrate cultural awareness for diverse population groups

Assessment

- Essay (70%)
- Reflective Journals (30%)

**Module Description**

This module explores the literature on healthy and risky behaviour in adolescents and its short- and long-term implication for their health. Building on data from the Health Behaviour in School Aged Children study, most recent evidence on risky and healthy behaviour among adolescents in Ireland will be explored, with special attention given to time trends, gender, social contexts and socio-economic differences reflected in that data.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Distinguish between healthy and risky behaviours amongst adolescents
- Identify the short- and long-term implications of healthy and risky behaviours for young people’s health
- Draw on existing evidence of healthy and risky behaviours and explore areas for intervention

**Assessment**

- Class Participation (10%)
- Weekly Discussion Questions (10%)
- Activity Assignment (10%)
- Article Critique (20%)
- Final Essay (50%)

**Module Description**

This module aims to examine the conception of 'childhood' as depicted in Irish-language texts, including texts from Old and Middle-Irish as well as contemporary literary texts. It also includes the study of Irish language children's literature. It will be delivered through English by members of Roinn na Gaeilge, School of Languages, Literatures and Cultures.

**Learning Outcomes**

Upon successful completion of this module students will be able to:

- Compare and contrast the representations of childhood in Irish-language literary texts from early Irish through to the modern day.
- Discuss the importance of the National School System (1831) in relation to the Irish language.
- Give an account of traditional Irish-language games for children.
- Conduct independent research on the archival material from the School's Folklore Collection available online at www.duchas.ie.
- Give an account of the prominent themes and motifs in works of fiction for children in the writings of Eilís Dillon and Cathal Ó Sándair.
- Describe the importance attributed to the child in the Irish-language revival movement.

**Assessment**

- Essay (50%)
- Project (50%)
Preparation for Third Year

Third year of the BA (Children’s Studies) programme includes a work placement at home or abroad. It is important to begin to consider the sort of placement which may be of interest to you as soon as possible. An information session will be held at the beginning of semester 2 of second year outlining the different placement options, but if you require any information in the meantime please do not hesitate to contact the programme co-ordinators.

Students studying Children’s Studies with a modern European language (French, Spanish, German, or Italian) must spend a minimum of 12 weeks in a country where the language is spoken in order to fulfil the language degree requirements. These students are therefore advised to seek a placement in such a country. Language students may also replace the work placement with an Erasmus university exchange, subject to the approval of the relevant language department and their Children’s Studies placement co-ordinator.

Students studying Irish with Children’s Studies are encouraged to seek a placement in an Irish-speaking context (e.g. a Gaelscoil) to keep up their skills; however, this is not a requirement of the degree. Students studying Irish who wish to avail of the Gaelteacht semester in lieu of Children’s Studies modules in Semester 1 must obtain permission from the Children’s Studies co-ordinator.

Every year 1-2 places are available for third-year Children’s Studies students on a university exchange with York University in Canada in lieu of the third-year placement. Selection will be made by the programme co-ordinators on the basis of academic performance in Children’s Studies modules in the first two years. Further details on how to apply will be given to students at the beginning of semester 2.
Third Year Modules

Semester 1 Core (compulsory) Module (10 ECTS):

<table>

**Module Description**

Using an action research approach, this module takes the students through the research process, from formulating a child-centred research questions, identifying the most appropriate approach to testing them, developing participatory research tools, collecting and analysing data and critically interpreting the findings.

**Learning Outcomes**

- On successful completion of this module the learner will be able to:
- Critique the participatory research process and appreciate the strengths and weaknesses of different methodological approaches
- Identify the appropriate research methods for different children groups
- Demonstrate an awareness of ethical consideration in research design
- Review participatory research papers.

**Assessment**

- Continuous assessment

</tr>
</thead>
<tbody>
<tr>
<td>CN3104 Transitions in Childhood and Adolescence</td>
<td>1</td>
<td>Online</td>
<td>10</td>
</tr>
</tbody>
</table>

**Module Coordinator:** Dr Michal Molcho

**Module description**

Transition has been defined as *the process of changing from one state or condition to another and a period of such change* (Oxford English Dictionary, 2012). This module will explore transitions that occur in children and adolescents lives, including

‘Vertical transitions’, described as ‘developmental and predictable’ and include moving on from one setting to another at the appropriate stage in education/life; NS ‘Horizontal transition’, described as the movement between activities during the course of a normal day. The module will also explore transitions that result from migration, changes in the family structure, and bereavement.

**Learning outcomes**

On successful completion of this module the learner will be able to:

- Discern between predictable and unpredictable transitions.
- Appreciate the complexity of emotional transition.
- Prepare a support plan to assist children with transitions.
- Assess the support needs of children with special needs as they go through periods of change.

**Assessment**

- Extended annotated bibliography
- Reflection on a film
**Module Coordinator:** Dr Kate Harvey

**Module Description**

This module explores recent trends in fiction aimed at the ‘young adult’ (YA) market. Students will read and discuss a range of popular YA novels from a variety of genres including historical, dystopian, realist, and science fiction, as well as film adaptations of recent popular YA series. Definitions of categories such as ‘children’s books’, ‘teen fiction’, and ‘young adult literature’ will be interrogated, as will the related phenomenon of ‘crossover fiction’. Students will explore why particular subjects and genres have proven more popular with young readers than others, and examine recurring themes such as identity formation, transitions, self-image and bodily autonomy, disillusionment with authority, and stereotypical adolescent issues (e.g. bullying, substance abuse, sexual awakening, depression).

*Content note: The texts you will study on this module necessarily include content that is emotionally challenging and potentially triggering. A full content warning guide will be available on Blackboard for any student who wishes to know about such content in advance.*

**Learning Outcomes**

On successful completion of this module students will be able to:

- Identify and define prominent genres of young adult literature.
- Demonstrate an understanding of the evolving role of literature within adolescent culture.
- Interpret key concepts and themes in novels aimed at young adults.
- Critically engage with current academic research on young adult literature.
- Connect the novels discussed to other areas of children’s studies.
- Develop critical writing and research skills relevant to the study of Arts and Humanities at third level.

**Assessment**

- Learning journal (40%)
- Group learning engagement (10%)
- Essay (50%)

**Module Coordinator:** Dr Kate Harvey

**Module Description**

This service learning module gives students a unique opportunity to participate in the Galway 2020 Legacy Project ‘Our Stories: Storytelling from Galway’s Diverse Communities’. This project will bring together third level students and young people in migrant and Traveller groups in Galway through storytelling and community engagement. Students will work with adolescents from migrant and Traveller communities in Galway under the supervision of Rab Fulton. The young participants will collect stories from their communities on the theme of ‘Language, Landscape, and Migration’, which will be collated and adapted into original performance pieces under the guidance of the NUI Galway students. The creative process as well as the completed stories will be recorded and broadcast as a publically available podcast, to be archived in the Hardiman Library, NUI Galway.

**Learning Outcomes**

Upon completion of this module students should be able to:

- Support creative expression in young people from marginalised groups;
- Use storytelling as a medium for transmitting creativity and ideas across generations and cultures;
- Use digital technology to collect, share and celebrate stories from the community;
- Advocate for the diversity of voices and stories in the Galway community.

**Assessment**

- Participation (20%)
- Learning Journal (40%)
- Reflective Essay (40%)
Module Coordinator: Dr Marianne Ní Chinnéide

Module Description

This module provides a broad introduction to the vibrant and growing field of Theatre for Children and Young People in Ireland. The module will examine the subject in terms of its history, practice and function, placing particular emphasis on the three key areas which ground this work: theatre (form), young people (children) and the audience. Fundamentally, this module will enable students to learn about the distinctiveness and purposes of children’s theatre, and will provide them with a practical and theoretical understanding to allow them to critically examine it in form and function.

*In 2020, this module will have two streams: blended and online only. A limited number of students will be permitted to take the blended learning option alongside Drama students; this will involve hands-on practical workshops on campus. Places in the blended class will be allocated on a first-come, first-served basis. All other students who choose this module must take the online version. Detailed descriptions of both versions, with information on how to apply for the blended version, will be circulated in early September.

Learning Outcomes

Upon completion of this module students will be able to:

- Develop knowledge of children’s theatre, its history and development.
- Recognise and develop an appreciation of theatre for children and young people.
- Develop an understanding of a range of theatre techniques and their application in a children’s theatre context.
- Develop professional work for children and young people.
- Learn how to engage aesthetically with and understand children’s theatre through engagement with theatre artists and performances at Baboró.
- Become critically aware of the role of theatre for young audiences in society.
- Locate and contextualise theatre for young audiences within a wider socio-cultural and educational context.

**Module Description**

Students are required to complete a minimum of 200 hours of work placement (approx. twenty hours per week) with an approved organisation. The objective of the work placement experience is for students to be involved in, and learn from, the work that is carried out by the organisation. In order for the experience to be successful for both the student and the organisation, the organisation is expected to assign a supervisor for the student. Clear objectives and learning goals should be set with the student at the start of the placement. These objectives will be developed, signed by the student and the supervisor and will be sent to the course director.

**Learning Outcomes**

Upon completion of the placement students will:

- Have experience working with or for children;
- Reflect on their learning;
- Integrate their work experience with theories that were taught throughout the programme.

**Assessment**

- Project (60%)
- Learning agreement (10%)
- Evaluation (10%)

**Module Coordinator:** Mr Javier Giménez-Sánchez

**Module Description**

This module will provide an overview of Children’s Human Rights from a legal, philosophical and social perspective. Having the conceptualisation of Human Rights and the International Convention on the Rights of the Child as a starting point, students will debate the concept and perception of childhood. The module will cover critical child issues like access to Health, Education, Cultural Rights, Juvenile Justice, Violence and Participation, focusing on both national and international level.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Demonstrate an understanding of the issues affecting children’s lives and their rights.
- Critically evaluate human rights mechanisms, particularly those related to children.
- Discuss the legal framework and the perception of children and child rights in the national and international context.

**Assessment**

- This module is assessed by continuous assessment (details TBC)

**Module Coordinator:** Dr Michal Molcho

**Module Description**

Health literacy is defined as the degree to which individuals have the capacity to obtain, process, and understand basic health information and services needed to make appropriate health decisions. While much of the focus in the field of health literacy is aimed at adults, as we focus on child-centred health services, there is also a need to explore the health literacy skills and needs of children and adolescents, with some focus on e-health literacy. This module will explore the general literacy of children and adolescents, their health literacy, and will explore the tools that exist to increase health and health literacy in this population.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Appraise the level of literacy in children and adolescents.
- Recognize the importance of promoting health literacy in children and adolescents.
- Identify the challenges associated with health literacy.
- Assess the existing tools for promoting health literacy in children and adolescents.

**Assessment**

- Continuous Assessment (100%)
Module Coordinator: Dr Devon Goodwin

Module Description

This module explores the connections between research, policy and practice in children’s services and lives. Throughout this module, students will be exposed to critical perspectives on evidence-based policy making and policy theory, being challenged to consider the complex interplay of forces affecting children’s policy creation on multiple levels in the Irish context. The module provides students with an introduction to the children’s policy landscape in Ireland and Internationally. It provides opportunity for critical analysis of how various policy initiatives are implemented, and how policy impacts the operationalization of key concepts such as family support, resilience, and children’s rights. Students will engage in an enquiry-based research project and prepare a report on a key piece of Irish policy of their choice, examining the factors contributing to its rise to the top of the policy agenda, articulating its core principles and goals, and exploring its implementation.

Learning Outcomes

Upon completion of this module students will be able to:

- critically examine the conceptual and practical links between research, policy and practice in the areas of children’s services and lives;
- examine the policy literature on and the public movement towards evidence-based policy making, and to critically problematize simple models of this relationship
- evaluate links between international and national policy, and national and organizational policy, as it relates to children’s lives.
- demonstrate an awareness and understanding of the children’s policy landscape in Ireland, including the multiple levels on which policy is formed, and the inter-relationships between key policies
- carry out an independent inquiry-based research project on a childhood-related policy in the student’s area of interest.

Assessment

- Continuous Assessment (50%)
- Final enquiry-based learning project / essay (50%)
Module Coordinator: Dr Kate Harvey

Module Description

This module explores recent trends in fiction aimed at the ‘young adult’ (YA) market. Students will read and discuss a range of popular YA novels from a variety of genres including historical, dystopian, realist, and science fiction, as well as film adaptations of recent popular YA series. Definitions of categories such as ‘children’s books’, ‘teen fiction’, and ‘young adult literature’ will be interrogated, as will the related phenomenon of ‘crossover fiction’. Students will explore why particular subjects and genres have proven more popular with young readers than others, and examine recurring themes such as identity formation, transitions, self-image and bodily autonomy, disillusionment with authority, and stereotypical adolescent issues (e.g. bullying, substance abuse, sexual awakening, depression).

Content note: The texts you will study on this module necessarily include content that is emotionally challenging and potentially triggering. A full content warning guide will be available on Blackboard for any student who wishes to know about such content in advance.

Learning Outcomes

On successful completion of this module students will be able to:

- Identify and define prominent genres of young adult literature.
- Demonstrate an understanding of the evolving role of literature within adolescent culture.
- Interpret key concepts and themes in novels aimed at young adults.
- Critically engage with current academic research on young adult literature.
- Connect the novels discussed to other areas of children’s studies.
- Develop critical writing and research skills relevant to the study of Arts and Humanities at third level.

Assessment

- Learning journal (30%)
- Group learning engagement (10%)
- Essay (50%)

### Module Coordinator: Dr Kate Harvey

### Module Description

This service learning module gives students a unique opportunity to participate in the Galway 2020 Legacy Project ‘Our Stories: Storytelling from Galway’s Diverse Communities’. This project will bring together third level students and young people in migrant and Traveller groups in Galway through storytelling and community engagement. Students will work with adolescents from migrant and Traveller communities in Galway under the supervision of Rab Fulton. The young participants will collect stories from their communities on the theme of ‘Language, Landscape, and Migration’, which will be collated and adapted into original performance pieces under the guidance of the NUI Galway students. The creative process as well as the completed stories will be recorded and broadcast as a publically available podcast, to be archived in the Hardiman Library, NUI Galway.

### Learning Outcomes

Upon completion of this module students should be able to:

- Support creative expression in young people from marginalised groups;
- Use storytelling as a medium for transmitting creativity and ideas across generations and cultures;
- Use digital technology to collect, share and celebrate stories from the community;
- Advocate for the diversity of voices and stories in the Galway community.

### Assessment

- Participation (20%)
- Learning Journal (40%)
- Reflective Essay (40%)

Module Coordinator: Ciara Gunning

Module Description

This training prepares students to directly implement behavioural interventions and to monitor their effects, under the supervision of a behaviour analyst. These modules provide teaching in behaviour change procedures applied to practice and it is designed in accordance with the RBT Task List (www.bacb.com/rbt-task-list/). RBT training develops the following skills: assessment and measurement of behaviour, implementing interventions to teach functional and adaptive skills, implementing interventions for the reduction of behaviours that challenge, professional and ethical practice. These modules will implement the accreditation requirements of the BACB® for students to fulfil the requirement to become Registered Behaviour Technicians.

Learning Outcomes

Upon completion of this training students will be able to:

- Identify the essential components of a written skill acquisition plan and written behaviour reduction plan.
- Demonstrate how to prepare for the session as required by the skills acquisition plan.
- Use contingencies of reinforcement.
- Implement discrete trail training procedures, naturalistic teaching procedures and task analysed chaining procedures.
- Implement stimulus control transfer procedures and stimulus fading procedures.
- Describe common functions of behaviour.
- Implement interventions based on modification of antecedents such as motivating/establishing operations and discriminative stimuli.
- Implement differential reinforcement procedures.
- Implement crisis/emergency procedures according to protocol.

Assessment

- Log book of fieldwork (25%)
- Supervision requirements (25%)
- Project (50%)
**Module Coordinator:** TBC

**Module Description**

This module explores children’s relationships with contemporary transmedia narratives, as both consumers and participants. Transmedia narratives, defined as stories told across multiple media platforms (Meyers et al 2014), have arguably become the primary means by which children encounter narrative storytelling. This module examines the position of transmedia narratives within the children’s culture industry and its surrounding academic and popular discourses. In groups, students will engage with a single popular media franchise through close examination of its various narrative elements including toys, games, clothing, interactive digital media, and fan-created content, as well as more traditional narrative media such as literature, film, and television.

**Learning Outcomes**

Upon completion of this module students will be able to:

- Describe the development of the children’s culture industry in the 20th and 21st centuries.
- Identify the issues at stake in children’s consumer culture.
- Critically appraise the various media platforms through which transmedia narratives are delivered.
- Recognise the ways in which children’s cultural products intersect and converge with each other to produce meaning.
- Engage with current scholarship on the impact of culture and media on development and socialisation.

**Assessment**

- Learning journal (40%)
- Group project (50%)
- Peer assessment (10%)
Module Coordinator: Dr Lindsay Myers

Module Description

This module will introduce students to the structure, purposes and aesthetics of picture-books. It will provide a broad overview of the history of the genre before proceeding to explore the varied ways in which the traditional picture-books format is being developed and expanded upon by digital media, art and drama. Attention will be paid to the developmental function of visual and verbal narratives in children’s culture, as well as to the role that these narratives play in the physical, intellectual, emotional and social development of children. Topics to be discussed will include the definition of the genre, the relationship between words and pictures, the role played by picture-books in the development of literacy and speech, the significance of storytelling in picture-book narrative, and the wide range of criteria used by adults, librarians, parents and academics to judge the quality and value of these works. Students will be encouraged to think critically about picture-books, and will learn to apply a range of critical approaches in their analysis of a selection of the most significant twentieth-century picture-books from Ireland and abroad.

Learning Outcomes

Upon completion of this module students will be able to:

- Demonstrate an awareness of the role that picture-books play in the social, emotional, physical and intellectual development of children.
- Examine the history of picture-books as well as learn about the most well-known Irish picture-book authors and illustrators.
- Assess the significance of picture-books in the acquisition of literacy and speech.
- Reflect on the picture-books that they read as a child and learn critical skills for analysing and judging the value and function of a wide range of contemporary picture-books.
- Explore the manner in which picture-books are being adapted in modern media and computer apps as well as their transposition from page to stage.

Assessment

- Essay (50%)
- Project (50%)
Module Coordinate: Dr Devon Goodwin

Module Description
This is a 15 ECTS module focused on children with special needs in family, community, and educational contexts. Module delivery is through a blended mode of lectures, tutorials and inquiry-based project work. Students will explore holistic models of conceptualizing the diverse needs of children, as well as examining and reflecting upon practical support strategies for inclusive environments. Students will explore and understand the Disability Act (2005) and the process of Individualized Education Plans (IEPs).

Learning Outcomes
Upon completion of this module students will be able to:

- Identify various common disabilities, and the intervention strategies for teaching and managing these disabilities.
- Describe the Assessment of Need process as provided for in the Disability Act 2005.
- Describe and reflect on the purpose and nature of the Individual Education Plan (IEP) document for children with special educational needs in school contexts.
- Identify holistic models of conceptualizing the diverse needs of children across a range of contexts
- Prepare and present the results of a critical research project on supports and interventions for children with special needs.
- Discuss the importance of effective interventions and supports in the trajectory of the lives of children with diverse needs, and the relationship of such interventions to the principals of both equity and equality.

Assessment
- Project (50%)
- Learning conference participation (40%)
Additional Information

Attendance

Regular attendance is mandatory for all modules. This includes both online and in-person classes. If for any reason you are unable to attend a lecture, please email the lecturer of the relevant module as soon as possible to explain your absence.

Additionally, you need to complete the on-line medical information form that is on the website below. Once you have completed the form please upload a copy of the supporting documentation (e.g. medical cert) and click on submit. This goes onto an internal database. College Office will then forward the information to your subject coordinators.

Assessment

Further information regarding assessment methods and deadlines will be made available by the lecturer of each individual module. If you are not entirely clear on any aspect of the assessment method, please contact the relevant lecturer for clarification.

If, for reasons of illness or personal circumstances, you are unable to submit an assignment on time, please contact the relevant lecturer prior to the deadline for submission. Late submissions will be subject to a penalty unless an extension has been granted and/or a valid medical certificate is produced.

Extensions and Late Submission Penalties

If you need to request an extension of a submission date, you must make that request to your module tutor/lecturer in advance of the date, where possible. The granting of an extension in retrospect can occur only in exceptional circumstances. We strive to be as flexible as possible with students who have legitimate reasons for late submissions, however, evidence (i.e. a medical certificate) will be required for an extension to be granted. What this means is that if you anticipate not making a deadline due to illness or a family upheaval you MUST ask your module tutor/lecturer for an extension in advance of the deadline.

If you do not request an extension and just submit an assignment late, marks will be deducted at a rate of 2% per day for 5 days after which the assignment will be marked on a pass/fail basis (in other words, it will receive either
40% or 0%) up to a maximum of 14 days in total (includes Saturdays and Sundays). As such, 1-5 days late, reduction of 2% per day (or part of) / 6-14 days late, marked on a pass/fail basis. After this 14 day period the assignment will no longer be eligible for submission and an alternative assignment will have to be completed as a second sitting. Alternative assignments will normally carry a similar timeframe to the original assignment, but will be capped at 40% (i.e. the maximum mark attainable will be 40%). Alternative assignments are subject to the same late penalties as the original assignment. All modules must be passed to successfully complete a year.

Garda Vetting

Garda Vetting (GV) is a requirement of admission and continued eligibility for this course. As such, GV forms should be returned promptly, since delays in returning GV forms may render you ineligible to continue attending this course. Please visit the following webpage for full details on the Garda vetting process: http://www.nuigalway.ie/postgrad-admissions/garda-vetting/

If you take a break from your studies, upon your return you should ensure that your GV will not expire before you complete this course. If it does you will need to apply again for GV for any subsequent years required for you to complete your studies.

Grading System

First class Honours A 70% and above
Second class Honours, grade 1 B 60% - 69%
Second class Honours, grade 2 C 50%-59%
Third class Honours D 40%-49%
Marginal Fail E 35%-39%
Fail F 0%-34%

Plagiarism

Plagiarism is defined by the NUI Galway Plagiarism Code of Practice as “the act of copying, including or directly quoting from, the work of another without adequate acknowledgement” and is a serious offence. The University guidelines state that “[t]he submission of plagiarised materials for assessment purposes is fraudulent and all suspected cases will be investigated and dealt with appropriately by the University following the procedures outlined here and with reference to the Disciplinary Code.” The full Plagiarism Code of Practice is reproduced as Appendix A of this booklet.

Students should familiarise themselves with the basics of academic referencing in order to ensure that they are not in breach of the Plagiarism Code of Practice. A
Student Communications

There are three avenues of communication between staff and students:

1. NUI Galway E-mail

All students will receive an NUI Galway e-mail address following registration with computer services. This is the only address used by University services (e.g. Examinations, Admissions, Fees Office) and Discipline administrative and academic staff to communicate with students. For reasons of security, privacy and continuity of contact only your NUI, Galway email address will be used. Other addresses (yahoo, hotmail, etc.) will not be used. Therefore, it is essential that students check their NUI, Galway account on a regular basis. Please note that the account should also be maintained by cleaning the different e-mail folders, as their capacity is limited.

2. Blackboard

The Discipline also uses the 'Blackboard' virtual learning environment for communication purposes. Course and module specific notices will be posted in the announcements section, course documents, and assignment details in the specific module pages. As Blackboard has a page for announcements, it is important that you check it regularly.

3. Class Representative

A Class Representative should be elected within the first month of study. The Class Representative will be the main point of contact with the Programme Director and will be expected to attend and feedback to the monthly Discipline meetings.

Language, Writing and Computer Supports

There are a number of sources of support for students within the University:

IT Facilities

Registered students at NUI Galway may use the computer network and the Blackboard virtual learning environment. When you register as a student you will be provided with a Username and Password which you will need to use and access the IT services and facilities. If you experience any difficulty with IT facilities, you should contact Information Solutions and Services at: http://www.nuigalway.ie/information-solutions-services/services-for-students/
Bulletins providing information on any issues, such as service disruptions, can be accessed on the ISS homepage and faults can be reported through the ISS ‘service desk’ ticketing system.

Library Facilities

The James Hardiman Library is based on the main campus in NUI Galway. When you are registered as a student of the University you are entitled to use the library facilities. The library is on three floors and for anyone with limited mobility there is a lift that serves all floors. The library’s website can guide you through the range of services available in the library. It is also possible to access most of the library’s services directly through the website. You can log onto the library site through www.nuigalway.ie or through Blackboard. The Library webpage includes links to pages such as ‘using the library’, ‘library catalogue’ and ‘off campus access’ and will guide you through using the resources of the library.

You will use your student ID card to borrow books from the library. To use the library resources electronically, you need to activate your campus account.

The Academic Writing Centre

The Academic Writing Centre (http://library.nuigalway.ie/awc) is located within the James Hardiman Library and offers free workshops and one-to-one supports to students with a focus on their writing skills. The Academic Writing Centre is open during the semester and operates as a drop-in facility although sessions can be pre-booked.

A full range of services available through the James Hardiman Library can be found at http://library.nuigalway.ie/support.

The International Affairs Office

The International Affairs Office (http://www.nuigalway.ie/international/) provides free writing support classes for students whose first language is not English. For more information, please email international@nuigalway.ie

Blackboard Learning Environment

What is Blackboard?

Blackboard is a web-based learning environment. It is a useful way for you to communicate online with staff and other students. You will be able to use Blackboard to read course announcements and access some of your lecture notes. Blackboard allows lecturers/tutors to upload lecture notes, reading lists, assessment information, and other course-related material to their Blackboard site so that students may access them. It also contains functions that enable students and teachers to interact via class announcements, e-mail, and discussion boards.
Students can log into the Blackboard system (http://blackboard.nuigalway.ie) using their standard student id and password (i.e. the same credentials as used to log into the PC Suites). Queries can be directed to Information Services and Solutions (ISS) Service Desk at 091 495777 or servicedesk@nuigalway.ie

Format for References

All assertions, pieces of evidence, and comments from others must be referenced. This should be done in standard academic format. The guidelines below are based on those of the American Psychological Society, and should be adhered to at all times when submitting written pieces of work, especially for assessment. For example, the way you should reference work in your essay text is as follows:

According to Jones (1993) the level of carbon dioxide in the...

or

The level of carbon dioxide in the surrounding field was elevated (Jones, 1993), while three or more authors are referred to as Jones et al., (1993).

All references used in the text must be included in the bibliography or reference section. Any omissions are a serious breach of acceptable practice. References should be presented in alphabetical order according to the surname of the first author and the second and subsequent lines of any reference should be indented.

Journal Articles

Books

Book Chapter

Newspaper Article

Other common forms for references are unpublished reports and personal communications

Use of a Secondary Source

Use of a secondary source (e.g. where you have obtained an account of a study from a textbook) should be made clear in both the text and the reference list. It is very important to correctly reference your sources.

For example, in text;
Naidoo and Wills (1994) cites Herzlich's (1973) study of the health beliefs of a group of middle-class Parisians and Normans...

or

The study of lay health beliefs by Herzlich (1973), as described by Naidoo and Wills (1994), presents an interesting picture of ....

In your reference list secondary references should be as follows:

Citing Documents Published on the Internet.

Increasing numbers of a variety of documents are available from the Internet. This source of documents should be acknowledged just as print material should be. A complication to the citation of internet sources is the wide variation in quality of sites available and the accuracy of information provided. Therefore, assessment of the site is necessary before it is referred to in academic work. Generally, peer reviewed journals published on the web and reports from organisations such as the World Health Organisation and Government publications are acceptable. The citation system that follows is taken from the American Psychological Association and is used extensively.

In the text, as with printed articles and reports the name of the author and year should be given (see previous page).

If a document is known to be available in ordinary printed form, then only its print form need be cited in a reference list. The Publication Manual of the American Psychological Association recommends adding ‘[Electronic version]’ after giving a journal paper title referenced in standard print form but viewed in its electronic form. This is because versions may differ in some ways (e.g. there may be additional data in the electronic version).

Where an internet citation must be given, the principle is that enough information should be provided for retrieval of the source. The minimum information needed is:
document title or description;
website address (of the specific document rather than a home or menu page);
and date of retrieval.
The author or originator of a document and the date of publication or update may also be given.

Line breaks can be a problem, especially as the hyphen is a functional character in internet addresses. If an address needs to be broken, avoid breaking directly before or after a full point or hyphen. If possible, break either side of a forward slash or underscore.

avoid: preferred:
www.bps.org www.bps.org.uk/sub-syst/
.uk/sub-syst/subsystems_div1.cfm subsystems_div1.cfm

Further examples are as follows:

a. Online journal article (available also in print)

b. Internet-only journal article

c. Non-periodical document
Note: Where no publication date is given, use n.d. instead of the year.

A selection of online resources for students on writing, referencing, and avoiding plagiarism can be found at http://www.nuigalway.ie/wrap
Code of Conduct for Students

Please note that the University has a code of conduct for students, which students are bound to read and abide by. Any student who enrolls for any course in the University in doing so accepts the objectives of the University and is giving a commitment, as a responsible individual and as a member of the University community, to behave in an appropriate manner. The primary objectives of the University are the dissemination and advancement of knowledge and understanding through teaching, research, study and rational discussion.

The Student Code of Conduct offers guidelines as to the norms of behaviour that accord with the obligations of students, but where more specific requirements are in place, they are available on the University’s web site here: www.nuigalway.ie/codeofconduct/. It should be noted that students of the University cannot claim any privileged position in regard to the general law of the land. Breaches of this Code and of any University regulations make students liable to the imposition of sanctions.

Appendix A: Code of Practice for Dealing with Plagiarism

1.0 Purpose
To set out the code of practice for dealing with issues of student plagiarism.

2.0 Description
Plagiarism is the act of copying, including or directly quoting from the work of another without adequate acknowledgement, in order to obtain benefit, credit or gain. Plagiarism can apply to many materials, such as words, ideas, images, information, data, approaches or methods. Sources of plagiarism can include books, journals, reports, websites, essay mills, another student, or another person.

Self-plagiarism, or auto-plagiarism, is where a student re-uses work previously submitted to another course within the University or in another Institution.

All work submitted by students for assessment, for publication or for (public) presentation, is accepted on the understanding that it is their own work and contains their own original contribution, except where explicitly referenced using the accepted norms and formats of the appropriate academic discipline.

Plagiarism can arise through poor academic practice or ignorance of accepted norms of the academic discipline. Schools should ensure that resources and education around good academic practice is available to students at all levels.

The Plagiarism Penalty Grid (included in this document) will be made available to all students.

Cases in which students facilitate others to copy their work shall also be subject to the procedures outlined here.

2.1 Procedures
Each School will appoint at least one plagiarism advisor, who is normally a member of academic staff. These advisors are Designated Authorities, as described in the Student Code of Conduct, and have responsibility and authority for dealing with suspected and reported cases of plagiarism.

A list of the current plagiarism advisors will be maintained and made available to all academic staff of the University.

A member of teaching staff who suspects plagiarism is welcome to speak with an appropriate plagiarism advisor, in confidence, about the case. At this point, the staff member is free not to continue with a formal report.

If a staff member decides to formally report a suspected case of plagiarism, a short report shall be prepared including a (marked-up) copy of the student work, along with any evidence for suspecting plagiarism. This report should be
forwarded to the plagiarism advisor.

The plagiarism advisor shall conduct an initial investigation of the alleged plagiarism, to determine if there is a case to be made. If the advisor concludes that there is no case of plagiarism, the reporting member of staff will be notified, with a clear statement of the reasons for the decision. If the plagiarism advisor decides that the case is one of plagiarism, he/she will make an initial assessment of the case using the penalty grid (step 1).

If the points, according to the penalty grid, are in the lower two bands (up to 379) the advisor may conduct an informal interview with the student to discuss the suspected case. If the advisor is satisfied that the case exists, an appropriate penalty will be selected from the grid (step 2).

If the points, according to the penalty grid, are more than 524, the advisor should refer the case to the discipline committee, in accordance with the Student Code of Conduct.

In all other cases (points in the bands 380-524), the student will be invited to attend an interview with the plagiarism adviser and an additional member of staff. The invitation may be by email or letter, and will include an explanation of the purpose of the meeting, including a copy of the marked-up piece of work. The student may be accompanied at the interview by a “friend”.

The additional member of staff may be another plagiarism advisor, the member of staff who reported the case, or another senior member of staff from the School.

Where a student does not engage with the process, by not responding or by refusing to attend an interview, the case will be referred to the discipline committee.

At the interview, the student will be given a clear explanation of what has been alleged, shown a copy of his/her work, given the opportunity to justify the work and be invited to admit or deny responsibility.

Following the interview, if the advisor is satisfied that the case exists, an appropriate penalty will be selected from the grid (step 2). After a penalty has been decided, the advisor will perform a fairness check to consider the impact of the penalty on the student’s overall performance. If the impact is incommensurate with the offence, the advisor may choose to adjust the penalty. In all cases, the student will be notified by the advisor, in writing, of the decision and any penalty imposed.

The plagiarism advisor will write a report, recording the decision and any penalty, which should be lodged centrally. This report is confidential and will not reflect upon the student’s record. It will be used to determine if a second or subsequent offence has occurred, and for statistical information only. It may be appropriate for incidents of plagiarism to be made known to relevant academic and support staff where this is required for the proper administration of academic programmes and academic decision making. Such sharing of information with appropriate staff does not breach confidentiality.

Plagiarism Penalty Grid

Step 1: Assign Points Based on the Following Criteria

**History**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Time</td>
<td>100 points</td>
</tr>
<tr>
<td>2nd Time</td>
<td>150 points</td>
</tr>
<tr>
<td>3rd/+ Time</td>
<td>200 points</td>
</tr>
</tbody>
</table>

**Amount/Extent**

<table>
<thead>
<tr>
<th>Condition</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Below 5% OR less than two sentences</td>
<td>80 points</td>
</tr>
<tr>
<td>As above but with critical aspects* plagiarised</td>
<td>105 points</td>
</tr>
<tr>
<td>Between 5% and 20% OR more than two sentences but not more than two paragraphs</td>
<td>105 points</td>
</tr>
<tr>
<td>As above but with critical aspects* plagiarised</td>
<td>130 points</td>
</tr>
<tr>
<td>Between 20% and 50% OR more than two paragraphs but not more than five paragraphs</td>
<td>130 points</td>
</tr>
<tr>
<td>As above but with critical aspects* plagiarised</td>
<td>160 points</td>
</tr>
<tr>
<td>Above 50% OR more than 5 paragraphs</td>
<td>160 points</td>
</tr>
<tr>
<td>Submission purchased from essay mill or ghostwriting service</td>
<td>225 points</td>
</tr>
</tbody>
</table>

* Critical aspects are key ideas central to the assignment

**Level/Stage**

<table>
<thead>
<tr>
<th>Level/Stage</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st year</td>
<td>70 points</td>
</tr>
<tr>
<td>Undergraduate (not 1st or final year)</td>
<td>115 points</td>
</tr>
<tr>
<td>Final year/Postgraduate</td>
<td>140 points</td>
</tr>
</tbody>
</table>
**Value of Assignment**

<table>
<thead>
<tr>
<th>Standard assignment</th>
<th><strong>30 points</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Large project (e.g. final year dissertation, thesis)</td>
<td><strong>115 points</strong></td>
</tr>
</tbody>
</table>

**Additional Characteristics (to be used only in extreme cases)**

Evidence of deliberate attempt to disguise plagiarism by changing words, sentences or references to avoid detection: **40 points.**

**Step 2: Award penalties based on the points**

**Summative Work**

In all cases a formal warning is given and a record made contributing to the student’s previous history.

<table>
<thead>
<tr>
<th>Points</th>
<th>Available Penalties (select one)</th>
</tr>
</thead>
</table>
| 280-329 | • No further action beyond formal warning  
         | • Assignment awarded 0% - resubmission required, with no penalty on mark |
| 330-379 | • No further action beyond formal warning  
         | • Assignment awarded 0% - resubmission required, with no penalty on mark  
         | • Assignment awarded 0% - resubmission required but mark capped or reduced* |
| 380-479 | • Assignment awarded 0% - resubmission required but mark capped or reduced  
         | • Assignment awarded 0% - no opportunity to resubmit |
| 480-524 | • Assignment awarded 0% - no opportunity to resubmit |
| 525+   | • Case referred to Discipline Committee |
### Formative Work

<table>
<thead>
<tr>
<th>280-379</th>
<th>• Informal warning</th>
</tr>
</thead>
<tbody>
<tr>
<td>380+</td>
<td>• Formal warning, with record made contributing to the student’s previous history</td>
</tr>
</tbody>
</table>

* Normally, marks will be capped at the pass mark for the assignment.
