

## **STATEMENT OF PURPOSE**

The Out-of-Hospital Cardiac Arrest Register (**OH CAR**) is the national registry of Out-of-Hospital Cardiac Arrests (OHCA) attended by statutory ambulance services where resuscitation is attempted in Ireland. The purpose of OH CAR is to establish the percentage of OHCA survival, identify factors that contribute towards survival, identify what could be done differently to increase survival and to provide regular feedback to service providers. Since 2012, OH CAR has collected data nationally on incidences of OHCA.

OH CAR is hosted by the Department of Public Health Medicine in the HSE West (North West region) and is jointly funded by the Pre-Hospital Emergency Care Council (PHECC) and the National Ambulance Service (NAS). It is administered and supported by the Department of General Practice, School of Medicine, National University of Ireland Galway (NUIG), Galway.

### **Full legal Name**

Out-of-Hospital Cardiac Arrest Register.

### **Year of commencement**

**OH CAR** was established in June 2007. Since 2012, OH CAR has collected national data.

### **Contact Details**

The OH CAR Manager can be contacted at 074 9104636 / 087 708 9807, or at [OH CAR@hse.ie](mailto:OH CAR@hse.ie), website; [www.nuigalway.ie/ohcar/](http://www.nuigalway.ie/ohcar/)

### **Name of Managing Organisation**

OH CAR is jointly managed by the HSE and NUIG Galway.

### **Target Population**

OH CAR includes data on all patients who suffer a witnessed or un-witnessed out-of-hospital cardiac arrest in Ireland which is confirmed and attended by Emergency Medical Services (EMS) and where resuscitation is attempted.

A resuscitation attempt is defined as performance of cardiopulmonary resuscitation (CPR) and/or attempted defibrillation where there is evidence of a cardiac arrest rhythm.

### Aims and objectives (function and purpose)

The overall function and purpose of OHCAR is to facilitate improved outcomes from OHCA in Ireland by:

- Collecting information on the population who suffer OHCA and the circumstances of the arrest
- Collecting information on the pre-hospital treatment of OHCA patients
- Registering the survival of OHCA patients
- Establishing a sufficiently large patient database to enable identification of the best treatment methods for OHCA and organisation of services
- Providing regular feedback to service providers
- Facilitating research nationally and internationally using OHCAR data

### List of Data providers

The primary source of OHCAR data are ambulance Patient Care Reports (PCRs) and ambulance dispatch data from the two statutory ambulance services, the National Ambulance Service (NAS) and the Dublin Fire Brigade (DFB).

OHCAR has data sharing agreements with other organisations including the Dublin Airport Authority (DAA), Red Cross, Civil Defence and Irish Coastguard and Order of Malta, but presently almost all data is provided from statutory services.

OHCAR has a data sharing agreement with all hospitals who receive OHCA patients with the exception of Our Lady's Children's Hospital, Crumlin. Collection of data from hospitals is facilitated by a range of hospital staff, including administrators, resuscitation officers, clinical nurse managers and consultants.

### Legal basis

OHCAR was established in response to a recommendation in the "Report of the Task Force on Sudden Cardiac Death"<sup>1</sup>. The need for OHCAR has been reinforced in the policy document "Changing Cardiovascular Health"<sup>2</sup> and the "Emergency Medicine Programme Strategy"<sup>3</sup>.

### Source of Funding:

The OHCAR project is jointly funded by the Pre-Hospital Emergency Care Council (PHECC) and the National Ambulance Service (NAS).

### Governance and Management Structure

The OHCAR Steering Group is responsible for ensuring that the aims of OHCAR are fulfilled and for advising on its organisation and direction. The Steering Group includes representatives from all four supporting organisations. The Steering Group meet on quarterly basis to discuss on the project progress and current issues. The Steering Group membership as of April 2018 consists of:

- Professor Gerard Bury, UCD Centre for Emergency Medical Science
- Mr. Gerry Clarke, Operational Support and Resilience Manager, NAS
- A/Professor Conor Deasy, Consultant in Emergency Medicine, Cork University Hospital
- Dr. John Dowling, North West Immediate Care Programme
- Ms. Jacqueline Egan, Programme Development Officer, PHECC
- Mr. Joe Fahy, Resuscitation Officer, Portiuncula University Hospital
- Dr. Joseph Galvin, Consultant Cardiologist, Mater Hospital
- Mr. David Hennelly, Clinical Development Manager, National Ambulance Service, HSE
- Ms. Siobhán Masterson, National Project Manager, Out-of-Hospital Cardiac Arrest Strategy, National Ambulance Service & HRB Research Fellow, Discipline of General Practice, NUI Galway
- Dr. David Menzies, CFR Ireland & Consultant in Emergency Medicine, St Vincent's University Hospital & Clinical Lead, Emergency Medical Science, UCD, Centre for Emergency Medical Science
- Professor Andrew Murphy, Discipline of General Practice, NUI Galway
- Professor Cathal O'Donnell, Medical Director, National Ambulance Service
- Mr. Martin O'Reilly, District Officer, EMS Support Officer, DFB
- Mr. Martin Quinn, OHCAR Manager, Discipline of General Practice, NUI Galway
- Dr. Peter Wright, Director of Public Health Medicine, HSE West (North West area) (Director)

The OHCAR Manager reports directly to the OHCAR Director (Director of Public Health Medicine) and is accommodated in the Department of Public Health Medicine, HSE North West and the Discipline of General Practice, NUI Galway. The OHCAR Manager is guided in his work by the Steering Group and also receives academic support from the Discipline of General Practice, NUI Galway.

#### National and International Legislation and Standards Adhered in Data Collection:

OHCAR, as the data processor, processes data on behalf of the data controllers (The National Ambulance Service / Dublin Fire Brigade), to provide quality improvement reports to NAS and DFB. OHCAR stores the data securely on the HSE server in the North West. All communication regarding data is encrypted and password protected. OHCAR has data sharing agreements in place with NAS, DFB and the participating Hospitals.

Document version number: 1

Date it is effective from: 30<sup>th</sup> April 2018
