- 2) Within the section 'Custom Products' select 'Oligos & Probes'

Custom Products

Sigma® Life Science is recognized as the world's leading supplier of custom and predesigned nucleic acid products, peptides and molecular biology tools servicing the global life science community. Our ability to guarantee quality and performance is directly related to our comprehensive understanding of various synthesis chemistries and manufacturing platforms, our investment in analytical systems, and our experience in methods development. Choose from our comprehensive portfolio of products.

Product Categories

Oligos & Probes

DNA oligos, RNA oligos, and qPCR probes for a variety of applications

Gene Knockout, Knockdown & Expression

siRNA duplex, shRNA, CRISPR, ZFNs, miRNAs, and ORFs targeting a specific gene or mRNA of interest

Peptides

Peptides provided in formats for a variety of applications.

3) Then select DNA Oligos in Tubes
