22	PFG MaxxCare	Actibac Bactericidal Detergent (5L), Unique formulation has passed the european test method EN 1040 at 1:100 achieving a kill rate of 99.999% on pseudomonas aeruginosa and staphylococcus aureus. Also tested against and proven to kill e-coli, salmonella, listeria and MRSA. Patented formula is unique in that it kills bacteria in normal use at normal dilution rates. Biodegradable, phosphate and formaldehyde free.	DT1133	DT1133	EnviroClean	1	€12.59
23	PFG MaxxCare	Steribac Detergent Cleaner (5L) STERIBAC is a BS EN 1276 approved bacterial kitchen cleaner and a best-selling product. Designed for use in the food industry, it is food safe, non-tainting, and is used in many food storage and preparation areas. Widely used in kitchens, bakeries, restaurants, fridges and freezers, it is also suitable for sanitising eating areas and kitchens in nurseries and care homes. STERIBAC is recognised and recommended by many Environmental Health Officers. Due to the minimal contact time of just 30 seconds, the optimal bug-kill rate can be achieved much faster than the 4 minutes many common alternatives require. This reduces the amount of time needed to clean and sanitise a zone. Key features:	DT1150	DT1150	EnviroClean	1	€5.15
